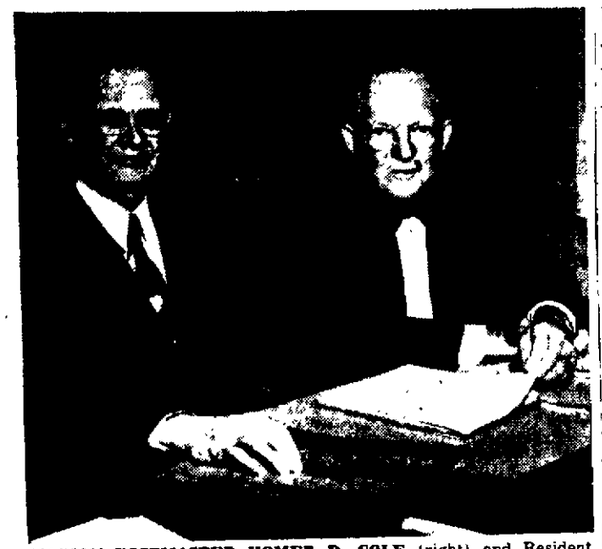
New Effort by Communists Fails To Bring Back POWs

Postal Clerks Given Test



MARION POSTMASTER HOMER D. COLE (right) and Resident Postoffice Inspector R. C. Alexander are shown above as they prepared to give 15 employes of the local postoffice written competitive examination for promotion to the positions of clerks-in-charge and foremen. The test, administered Saturday morning, was the largest ever given by the Postoffice Department with some 50,000 postal clerks and carriers taking it throughout the nation. Thirteen clerks and two carriers took the test in Marion. In the future, promotions to supervisory jobs will be based on the results of such competitive examinations among postoffice employes.

Promises 'All Facts'

Truman To Discuss Spy Issue Tonight

WASHINGTON (AP)—Some Democrats in Congress rallied behind former President Truman as he prepared to discuss the Harry Dexter White case tonight on radio and television.

Although there were some dissenters, the minority party seemed to be drawing closer in a development that could spell trouble for the Eisenhower administration's program in the next session of Congress.

Further Details Promised

Atty. Gen. Brownell has promised further disclosures beyond the White case, in which he charged that Truman promoted White to be U.S. director of the International Monetary Fund after the FBI told Truman White was a spy.

Truman, who has said no such thing happened, reports to the nation tonight in a speech which, he has said, will "tell all the facts." He said in Independence, Mo., last night that Director J. Edgar Hoover of the FBI attended a conference at which White's fate was discussed But Truman did not specify the time of the conference or say who else attended.

White was named to the monetary fund position early in 1946. He served for more than a year and then, by Truman's account, was fired by being allowed to resign. He died in 1948 a few days after testifying he was neither a Communist nor a spy.

Under Surveillance

Several newspapers have published stories from sources they did not name saying that White was kept on under an agreement with the FBI to prevent Communists from learning that he was under surveillance. Some of these accounts said the monetary fund positions was less sensitive than the one he held previously as assistant Treasury secretary.

The FBI has declined comment, but authoritative sources have told the Associated Press there was no advance agreement by the FBI to allow White to stay in government service so that he could be watched.

Political figures disagreed in weighing the probable effect of the case on next year's elections for control of Congress.

Chairman Leonard W. Hall of the Republican National Committee said yesterday the issue of communism in government will be a major one. Chairman Stephen A. Mitchell of the Democratic National Committee told a news conference at Beloit, Wis.: "I don't think the people will eat warmed-over spy."

Ex-President To Go 'All-Out' On Radio-TV

INDEPENDENCE, Mo. (AP)—Harry S. Truman, ready to tell a nationwide audience his side of the Harry Dexter White controversy, says FBI Director J. Edgar Hoover sat in on a conference at which White's fate was discussed

The former President replies tonight over radio and television hookups to Atty. Gen. Brownell's charges that in 1946 he kept White in government service despite FBI reports that he was a spy.

Plan to Trap Ring

Hoover's name came up when Truman was questioned last night bout reports his speech would explain White was retained in government work under a plan to trap an alleged Communist spy ring.

Associates of the former President have been quoted as saying the case of White, who died in 1948, was discussed at a conference of Hoover, the late Chief Justice Fred Vinson and Tom C. Clark, then attorney general and now a Supreme Court justice

It was at this conference that a plan to keep White in government work was reportedly agreed upon.

Truman, in stating that Hoover did attend a conference on White, told a reporter:

"That's all I'm going to tell you now."

'Will Answer All'

His speech, he said, "will answer all questions that can be answered at this time."

Brownell has charged that "White was known to be a Communist spy by the very people who appointed him" to the monetary post.

Truman said he would go "all out" on his speech tonight, which will be carried by NBC, CBS and ABC radio and television networks at 11 p. m., EST.

Truman and associates have been working on the speech for several days.

Diabetes Drive Opens Today in Marion County

Marion County's Diabetes Detection Drive opened today and will continue through Saturday.

The detection of diabetes is being emphasized this week by the Marion academy of Medicine in cooperation with a nationwide drive sponsored by the American Diabetes Association.

Diabetes detection tests are being given free of charge this week by Marion County physicians who are cooperating in the effort to discover diabetic patients in the early stages of the ailment, while medical care can bring it under control.

On Saturday, members of local Boy Scout troops distributed posters and the detection test forms to the offices of Marion County doctors and circulars to various business establishments.

Members of the local diabetes committee are Dr. Charles W. Wilson, chairman; Dr. James McGlew, Dr. Clovis J. Altmaier and Dr. Merritt K. Marshall.

The diabetes test, which takes only a few minutes, may result in the warding off of future complications. Insulin, when needed, diet and exercise constitute a means of control that in nearly all cases will enable the diabetic to live a normal life.

Trieste Pact Hopes Raised By Tito Offer

Waives Claim to City But Asks Territory; 5-Power Meeting Seen

ROME (AP)—A new offer by Yugoslav President Tito to give Italy the port city of Trieste raised diplomats' expectations here that a five-power conference on the disputed Adriatic territory is imminent.

These circles also felt Italy and Yugoslavia now were agreed on a number of major points relative to the 285 square miles of territory inhabited by 375,000 persons which each nation has claimed in the past.

Concedes Trieste

Speaking in Belgrade yesterday, Tito dramatically waived his nation's claims to the port city and conceded Italy should have it. But he repeated his demand for the rest of Zone A, the territory of farms and vineyards around the city. The city's 300,000 population is largely Italian, the rest of the zone's 25,000 settlers are mostly of Yugoslav-Slovene origin.

Tito also warned that any further Italian expansion at Yugoslav expense would result in a "conflict." He told a parliamentary election rally "Yugoslavia will not go to war for Trieste," but Deputy Foreign Secretary Ales Bebler later explained his chief meant just the port city, not all of Zone A.

Would Isolate Port

Yugoslav control of the rest of Zone A would isolate the port from Italy. Diplomats here believed, however, that Yugoslavia also would concede Italy should get a corridor linking her with the city. They anticipate sharp disagreement, however, on how wide this band should be.

Tito's speech represented a moderation of Yugoslav policy. On Oct. 10 he had demanded the city be an autonomous, or self-governing unit under Italian sovereignty, with the rest of Zone A having similar status under Yugoslav sovereignty. He also had demanded internationalization of the city.

Diplomats here hinted that announcement of a five-power conference on Trieste was in the offing. At the conference, the United States, Britain, France, Yugoslavia and Italy would seek to iron out the issues brought to a head by the British-American declaration Oct. 8 that they were withdrawing their occupation troops from Zone A, including the port, and turning the area over to Italy.

Withdrawal Delayed

Tito's threats to march his own troops into Zone A—they already occupy Zone B—if the Italians moved in has delayed the British-American withdrawal.

The fate of any five-power conference on Trieste may be decided this week by Italy's Parliament.

Premier Giuseppe Pella must go before the Chamber of Deputies tomorrow with his Trieste policy. The Communists and their Socialist allies plan to demand a vote of confidence.

Pella almost certainly will win such a vote unless the right wing deserts him. But if Trieste negotiations are to have any hope of success, he must win without making commitments in the Chamber that would tie his hands at the conference table.

Points of Agreement

Tito's new offer brought from one responsible source this listing of the points on which Italy and Yugoslavia are substantially agreed

1 That the British-American decision to turn all of Zone A over to Italy is neither satisfactory nor definitive.

2 That the port city should be given to Italy though presumably with guarantees of minority rights

3. That guarantees should be worked out to ensure the port will continue to serve central Europe. Yugoslavia and Italy without prejudice to any nation's interests

4 That some peaceful solution to the dispute should be found.

14 Ex-Klanners Held On Kidnaping Charges

WASHINGTON (AP) — FBI agents today rounded up 14 alleged former members of the Ku Klux Klan in North and South Carolina on charges they kidnaped and flogged a brother and sister exactly two years ago today.

FBI Director J. Edgar Hoover, who announced the arrests, said they were "a continuation of intensive FBI investigation of floggings in the two states which already has resulted in 29 convictions on similar charges in the past year and a half."

Those taken into custody at their homes early this morning were formally charged with kidnaping, interstate transportation of the two victims and their flogging "in a planned raid."

DURING HIS VISIT TO OTTAWA, President Dwight D. Eisenhower stops to place a wreath at the base of the 70-foot National War Memorial to Canada's war dead. A Canadian sailor and a woman naval officer form part of the guard of honor at the memorial. This is the first state visit President Eisenhower had made to a foreign capital since he entered the White House in January.

GOP in Ohio Seeks To Avert Primary Fight

Look for Sen. Bricker To Head Off Bid by Bender for Taft's Seat

COLUMBUS, Ohio (AP) — Republican leaders looked today to Sen. John W. Bricker to prevent a party damaging primary election fight for Taft's vacant Senate seat.

Weekend reports that Congressman George H. Bender of Cleveland, GOP Cuyahoga County chairman, had ordered his petitions printed created an explosive situation.

Potential Republican candidates have been marking time until Bricker returns Friday from a South American tour with a congressional committee studying export-import bank operations. Bricker became Ohio's senior senator with the death of Sen. Robert A. Taft last summer.

Prospective GOP candidates for governor are pledged to avoid a primary fight if possible but no such "understanding" appears to exist between senatorial aspirants.

Bender has done about everything to become a senatorial candidate except make a formal announcement. But downstate senti-

Mansfielder To Be Held For First Degree Murder

MANSFIELD, Ohio (AP)—Prosecutor Theodore Lutz said today he would file first degree murder charges against Charles Thomas, 34, Mansfield, in the slaying of James Richardson, 74.

An old-age-pensioner, Richardson was shot twice Friday morning at his home here. Police Detective S. Bruce said Richardson apparently had opened the door, and the assailant had fired two shots through the screen.

Watch on House Pays Off

3 Men Held as Suspects In Series of Local Thefts

Some three weeks of watching a house on the west side of the city paid off for Marion police Saturday with the arrest of three men and the recovery of some $600 worth of stolen goods.

Arrested and being held on an open charge for investigation were Charles P. Wallace, 35, of near Swanton, O., and Harold David Walker, 25, and Ray Martin Coykendall, 18, both of near Marion.

Police said Walker and Coykendall both face possible charges of grand larceny and Wallace with a possible charge of receiving and concealing property. A fourth man arrested was later absolved of any knowledge of the thefts and was released.

As told by Police Captain Justin Cornely, the story of the thefts and the ultimate arrest of the three men started on Oct. 24. On that date police were called to investigate the burglary of a new house under construction at Chatfield Rd. and Maple Lane. The contractor building the house, Donald Rengert of Waldo, reported that some $150 worth of tools and new electrical equipment and appliances we re taken from the house

At that time police developed a suspect and began watching his movements and a house on the West Side he was known to visit. His name and address were withheld.

Saturday afternoon while police officers were watching the house, they saw Charles Wallace and Harold Walker load seven automobile tires and wheels into the trunk of a car. After they drove off, police followed them and a short time later stopped them, Cornely said. In the car police found a pipe wrench which was identified as one of the $150 worth of tools stolen from an open building at the Millard Hunt Co. on N. Prospect St. on Nov. 10.

IN LATER QUESTIONING at the police station, Wallace admitted that Walker and Coykendall had brought a large supply of electrical equipment and tools to his home at Swanton, Cornely said.

Two policemen along with Wallace then went to Swanton where they found part of the loot stolen from the new house on Chatfield Rd in a rabbit hutch at the rear of Wallace's home. The rest of the loot was found in a shop in Swanton where Wallace worked, Cornely said. Also recovered were all the tools stolen from the Millard Hunt Co., Cornely added.

In addition to the $300 worth of property which has been identified, police also recovered some $300 worth of other property which is not yet identified. Included in this list are 11 tires and wheels and numerous small and large hand power tools.

Seating of Jury Starts in Trial Of Kidnapers

KANSAS CITY (AP)—Selection of a federal jury starts today for a hearing that will determine whether the kidnap-slayers of 6-year-old Bobby Greenlease shall die in the gas chamber.

Carl Austin Hall, 34, playboy wastrel, and Mrs. Bonnie Brown Heady, 41 housewife turned alcoholic, already have pleaded guilty to violating the Lindbergh kidnaping law

The couple is subject to life imprisonment or death under the statute. The death sentence must be recommended by a jury.

U. S. Dist. Atty Edward L. Scheufler has said he would request the death penalty, so the jury was called to hear the evidence.

He said the government would try to show that Hall and Mrs. Heady kidnaped and killed the son of multimillionaire auto dealer, Robert C. Greenlease without any mitigating circumstances

Twenty subpoenas have been served and up to 200 persons are available to testify for the government, Scheufler said

U. S. Dist. Judge Albert L. Reeves has indicated he believes

the evidence can be presented in a short time

Judge Reeves appointed Roy K. Dietrich, president of the Kansas City Lawyers Assn., to represent Hall. Mrs. Heady's attorney is Harold Hull of Maryville, Mo.

Dietrich has said he does not know yet whether the defendants will testify. He said that "depends on what the United States attorney does in the case."

Mrs. Heady admitted luring little Bobby from a private school in Kansas City, Mo. She and Hall took him across the state line into Kansas, where he was shot to death in a field Sept 28 The body was buried in a grave already dug behind Mrs. Heady's house in St Joseph, Mo.

Reuther Charges Favoritism

Convention of CIO Hears Administration Attacked

CLEVELAND (AP)—CIO President Walter Reuther attacked what he called the Eisenhower administration's "service to big business" as the CIO opened its national convention today.

In his annual report, Reuther said:

"It is an open secret in Washington that major drives will be under way to undermine much that remains of the New Deal and the Fair Deal."

He called on union members to rally behind the CIO in supporting candidates at all levels who can be depended upon to strive for CIO aims

McDonald To Stay Out

Although the report emphasized harmony within the CIO family, one important CIO leader was planning to snub the convention David J. McDonald, head of the powerful United Steelworkers, reportedly intended to stay away from most of the important sessions.

McDonald, who succeeded the late Philip Murray as head of the steelworkers union, kept himself scarce in the CIO's pre-convention corridors Both his union and Reuther's auto workers group, with more than a million members each, have constantly vied for the CIO leadership.

Has Other Plans

A year ago, at the CIO convention at Atlantic City, McDonald supported Allan Haywood, who since has died, in an unsuccessful effort to stop Reuther from becoming CIO president as Murray's successor

McDonald, named as a member of the Eisenhower committee to study tariff problems, was reported committed to attending meetings of that group in Washington

Explanations Reopen After 10-Day Delay

Red Pleas Rejected 221 to 6; Interviews Last Up to 5 Hours

PANMUNJOM (AP)—Angry, howling Koreans today turned down, 221 to 6, Communist pleas to come home in another stinging boomerang for the Reds who asked to interview them after 10 days of stalling

The Communists dragged through the noisy interviews, meeting only 227 of the 471 Korean prisoners called to the explanation area.

Badgered for 5 Hours

One of the six POWs who chose communism sat through five hours of Red wheedling and talk. U.N. observers protested he was worn out and confused and unable to make a rational decision.

The Communist batting average was close to their over-all 3 per cent for some 2,400 prisoners interviewed. The almost negligible figure has been a jolt to Red propaganda that all the 22,600 balky POWs wanted to come home.

The Reds were scheduled to meet with 500 Chinese prisoners Tuesday.

Meanwhile, Allied and Red diplomats meeting nearby named two subcommittees to begin work tomorrow on the time, place and makeup of the Korean political conference.

POWs Lose Patience

Some of the interviews with the Koreans lasted 2½ hours. They were relatively quiet until late in the afternoon, when the POWs began attacking the persuaders as if on signal.

Almost simultaneously, prisoners began to stand up and abuse the Communist explainers, who seemed unable to cope with the outbursts.

The POWs threw shoes and banners and tried to swing metal chairs at the Reds But Indian guards, three and four strong in each explanation tent, wrestled them back to their seats.

The prisoners fought with guards until Indian chairmen in each tent ordered a cooling-off period.

The explainers pleaded, shouted, smiled and threatened.

The prisoners listened contemptuously, confidently, sometimes shouted back — and then chose South Korea.

Explanations have been held only seven days since the originally scheduled starting date Sept. 26. The period is due to end Dec. 23.

The explanations resumed after the Communist command turned a surprise flipflop yesterday.

The Reds had insisted stubbornly since Nov. 5—the last day explanations were held—on interviewing the remainder of a Chinese compound they failed to finish that day. The Chinese refused to come back for a second try.

They suddenly dropped that demand and asked for the North Koreans.

'APPARENT HOAX.' George Dupre (above), the Canadian hero of Quentin Reynolds' latest book "The Man Who Wouldn't Talk," has admitted it was all talk. He was never a British spy, he was never captured by the Nazis, he has never been in France, the scene of all the fantastic adventures Reynolds, together with the editors of a magazine and a book publishing firm which published the work, confessed their bewilderment over one of the most successful hoaxes in history.

Duplication on Federal Tax Lawsuits Cited

House Probers Call for Drastic Remedies in Government Action

WASHINGTON (AP) — House tax fraud investigators today urged "immediate and drastic remedies" for costly delays and duplication of effort in federal tax lawsuits.

They asserted that existing divided responsibility for tax cases between the Treasury and Justice departments puts "undue burdens" on taxpayers and should be revised to give the Internal Revenue Service greater authority.

Flle Second Report

In the second of a series of reports on a two-year investigation of the Internal Revenue Service, a ways and means subcommittee said it found duplication of effort "in every activity" in which the Tax Division of the Justice Department participated.

"The consequent delays both prejudice the government's chances in litigation and impose undue burdens on the taxpayer," the report stated.

"The waste of manpower reduces the number of cases which the government can litigate.

"Effective coordination of tax policy is not being achieved."

Names No Names

The subcommittee named no names in its report. A featured witness during its hearings was T Lamar Caudle, former assistant attorney general in charge of the Tax Division. In November 1951 he resigned at the request of former President Truman, who said he had "outside activities" incompatible with his official duties.

The subcommittee recommended, in effect, that the Justice Department's role be cut down and that of the revenue service increased in fixing policy on prosecution of tax cases

It recommended that the attorney general and secretary of the Treasury get together to end present duplications in the legal review of criminal prosecutions and suits to collect delinquent taxes, suits for tax refunds, appeals, and handling of offers to settle or compromise tax cases.

Under the existing setup, the chief counsel of the Internal Revenue Service is charged with processing and screening tax cases prepared by revenue agents.

These cases then go to the Justice Department for prosecution. The department's Tax Division takes jurisdiction over all cases as soon as they go to court.

The subcommittee, however, said that in criminal tax cases the Tax Division's role is limited to approving the proposed prosecution before referring it to a U. S. district attorney.

The report said the Justice Department "blocked" a proposal to eliminate processing of cases by the Tax Division and to have them forwarded directly from the revenue bureau to U. S. attorneys.

Annual Marion C of C Dinner Slated Tonight

A full house is expected tonight when Marion Chamber of Commerce members and guests turn out for the annual Chamber dinner meeting a Hotel Harding at 6 30 p. m.

Principal speaker will be Capt Michael Fielding, news analyst and world traveler. His talk will be on "The Way Out."

Speaking from personal observation made during his many trips to world trouble spots, Capt. Fielding is said to have a knack for disclosing events long before they get into news headlines.

Now a citizen of the U. S., he was a captain in the Indian army from 1915 to 1920 when he came to this country. He has since served as a reporter and feature writer for the Chicago Journal and the Chicago Tribune.

His most recent trips abroad took him to Western Europe in 1951 and on a summer tour of Europe last year.

Toastmaster for the evening will be M. Paul Hunt, junior past president of the Chamber. Honor guests are expected to be present from Columbus and Detroit.

5 Ohio Firms Will Step-Up Tax Write-Off

WASHINGTON (AP) — Five Ohio companies yesterday received stepped-up depreciation write-offs for federal taxes on defense projects.

The Office of Defense Mobilization grants depreciation write-offs in five years instead of the normal 20-25 years to encourage defense expansion.

The estimated cost of Ohio projects and the percentage of each to which the write-off may be applied:

Erie Railroad Co., Cleveland, $6,955,600 for rail transport, 60 per cent.

Republic Steel Corp., $2,200,000 for powdered iron production at Toledo, 65 per cent.

Gulf Refining Co., Toledo $4,878,687 for petroleum refining facilities, 65 per cent.

Chesapeake Ohio Railway Co., $2,348,000 for rail transport in Ohio, 40 per cent.

Ohio Power Co. $3,852,000 for electric power in Allen County, 65 per cent.

450 Homemakers Attend Wyandot County Event

Special to The Star

UPPER SANDUSKY—A total of 450 Wyandot County homemakers attended the 4th annual Christmas open house, sponsored by the county Home Demonstration Council, at nearby Harpster High School last week. Mrs. Archie Rice, of Harpster, served as general chairman. Members of the planning committee were Mrs. Homer Lutz, Mrs. Wayne Rothlisberger, Mrs. Oscar Laudenslager and Mrs. Robert Case.

Demonstrations of the making of tree ornaments employed varied material including styrafoam, metallic papers, toothpicks and walnuts. Baskets and homemade candles were featured in the centerpiece display. The true meaning of Christmas display was a manger scene. A bright note in the door decoration demonstration was a red oilcloth stocking filled with toys and evergreen twigs.

Boy, 8, With Candle Starts Cleveland Fires

CLEVELAND (AP) — An 8-year-old boy carried a candle to search for toys in a friend's house yesterday, detectives said, and lit a couple of fires causing several thousand dollars damage.

A neighbor saw the curtains in flames at the home of Mrs. Pauline W. McCulloch and summoned firemen. Firemen also found a blaze in the bedroom of the woman's son Thomas, 11, who was visiting a friend.

Mrs. McCulloch and her daughter Donna, 13, were visiting in Youngstown. Later, she estimated the damage at $6,000.

Crawford County Man To Begin Prison Term

Special to The Star

BUCYRUS—Norman Eshelman, 25, will be taken to the Ohio Penitentiary in Columbus this week to begin serving an indeterminate sentence following his plea of guilty to a charge of operating a motor vehicle without the owner's consent at his arraignment here before Common Pleas Judge John C. Carroll.

Following his indictment by the Crawford County grand jury, Eshelman pleaded innocent at an arraignment Oct. 21 before Judge Carroll. Authorities said he had served a previous sentence for auto theft.

Eshelman, accompanied by a minor, was charged with stealing an auto belonging to C. M. Garverick of near Lexington, on June 13 while it was parked near the Stratburg Mfg. Co. in Galion. The car was recovered in Mansfield.

Ashland Director Of Civil Defense Heard at Meeting

CINCINNATI (AP)—Dr. C. V. Muesser, civil defense director for Ashland, wants state officials to recognize the important role small communities could play in case of a bomb attack.

Dr. Muesser spoke yesterday at the fourth National Target Areas Medical Society CD Conference. During the meeting the conference formally organized as the County Medical Society CD Conference. About 100 persons attended.

Under atomic attack, target areas such as Toledo and Cleveland would undergo terrible damage, Dr. Muesser said. The job of caring for the injured and of rebuilding the communities would fall on "support areas."

These support areas contain no concentration of industry or other war - important facilities, he explained.

Gas Well Capped After Week's Blow

PAINESVILLE, Ohio (AP)—A gas well which forced evacuation of 72 persons from their homes was capped in nearby Grand River yesterday.

The evacuees, hotel guests of the Morton Salt Co. for more than a week, returned home after concrete sealed up the well.

The salt company bored the well to obtain test cores. When gas was struck unexpectedly and the inflammable fumes began hanging in the overcast sky, it was decided to move out families living nearby.

It will happen this winter to 1 out of 4

(but with Guaranteed Starting, you start or we pay!)

Official records show that one Ohio driver in four can expect starting trouble this winter. But there's a way you can be protected against it. It's Sohio Guaranteed Starting.

The protection you get with Guaranteed Starting is specifically designed to prevent starting failure.

Yet it costs no more than you'd spend anyway. It includes a change to winter-grade Sohio motor oil and gear lubricant, a battery test (free), one free bottle of Sohio Super Hi-Cyl fuel line anti-freeze (a 69¢ value), and regular use of winterized X-tane or Supreme gasoline.

With this protection, you get a guarantee that your car will start *all winter long*. If it doesn't, you just call any garage for starting service, mail the receipted bill to Sohio, and Sohio reimburses you for the starting service. It's your assurance of the most thorough-going winter starting protection on the market.

Price of Thanksgiving Gobblers May Drop Slightly This Season

Thanksgiving turkey supplies in Ohio should be about the same as last year, D. D. Moyer, secretary of the Ohio Turkey Association and general manager of the new Ohio Turkey Marketing Association, said today.

As in former years, Ohio will have to import some birds to meet the demand for the fowl which is especially popular around Thanksgiving time. The 3,200 turkey growers in the state produce about 1,600,000 birds each year.

Even with that production, Ohio markets still must import from 30 to 40 per cent of their turkey supply each year, Moyer said.

Price this year will probably be about the same as in 1952 with the possibility they may be slightly lower.

Counties in the Marion area are not high in the list of turkey producers. The largest supply in the state comes from the northwestern section where large turkey farms are located.

On a national scale, California leads in turkey growing. Texas, which used to be first, has now slipped into second place, with Minnesota and Virginia ranked third and fourth.

Ohio markets bring in turkeys from all over the rets of the country when the supply runs short, Moyer expressed the belief that plenty of turkeys of all sizes would be available for Thanksgiving.

He added that when Christmas time comes, though, buyers may have to purchase larger birds than are actually wanted. For those persons who did not buy turkey Moyer said the next most popular main course for a Thanksgiving meal would be roasting chickens. After that would come capons, ducks and geese.

Wyandot County Pastors Plan To Attend Meeting

UPPER SANDUSKY — Several Wyandot County pastors will attend the 42nd annual meeting of the Lutheran Welfare Service of Northwest Ohio to be held at St. John's Lutheran Church in Williston on Wednesday, Nov. 18. They include Rev. John A. Root, Christ Lutheran, at Carey; Rev. William J. Zeltner, Bethany and North Salem, near this city; Rev. F. LeRoy Sarver, local St. Paul Lutheran, and Rev. Andrew Kolarovsky, pastor of the First Lutheran in this city.

Dr. Elmer E. Flack, dean of Hamma Divinity School of Wittenberg College in Springfield, will be the principal speaker.

Bucyrus Area Residents List Election Expenses

BUCYRUS — The unsuccessful campaign of Jay F. Nichols, Republican, who was a candidate for re-election as Galion mayor at the Nov. 3 election, cost him $415.60, according to a statement of expenditures filed with the Crawford County Board of Elections. Nichols said he received a contribution of $255 from John A. Anker.

Nichols was defeated by Francis Schalip, Democratic president of council.

In Crestline, where all candidates were without opposition, all candidates reported no expenditures and no contributions. The successful candidates included Mayor Nelson Lee.

The Bucyrus Democratic committee, headed by John A. Messerschmidt, reported expenses of $201 15 and receipts of $133.

In Galion, Charles D. Lauer, Democrat, elected councilman, reported expenses of $19 97 and Colin H. MacAdam, unsuccessful Democratic candidate for solicitor, $7.92. Treasurer Clio Kreiter, a Democrat, and Martin T. Kruger, Republican, defeated for council, reported no expenses.

100 BATTLE FOREST FIRE

PORTSMOUTH, Ohio (AP) — More than 100 volunteers battled flames which spread over 200 acres of the Roosevelt State Forest in Scioto County last night and early today. The fire burned in an area west of Upper Twin Creek about 15 miles west of Portsmouth.

Origin of 85-Foot Balloon Ashtabula County Mystery

JEFFERSON, Ohio (AP) — Was Trumbull County's "flying thing" the same as Ashtabula County's balloon?

A clear plastic balloon of 85-foot length settled down on a farm near Rock Creek yesterday and was discovered by 18-year-old David Gage.

Although local members of the Civil Air Patrol doubted it was a weather balloon, one report suggested it may have been something like that

A spokesman at the Akron-Canton Airport Weather Bureau pointed out the University of Minnesota and several other universities are using balloons for research into upper atmospheric conditions.

Earl Kilroy, director of civil defense in neighboring Trumbull County, speculated there was some connection between the balloon and the past week's reports of an object in the sky.

Last Monday a Trumbull County citizen reported seeing an orange colored "flying thing" in the sky. After that, said Kilroy, about a dozen other persons made similar reports. His office had set up a special night telephone number to receive reports on the situation.

Convict Just Out Asks Wrong Man To Aid in Stickup

SPRINGFIELD, Ill. (AP)—Robert Fahey and John Leone walked into a tavern Saturday night. A stranger approached Fahey, asking, "How about helping me in a stickup?"

Fahey agreed, asked for particulars, and was told the job "was good for $18,000 to $20,000." The question of time came up.

"I'm ready now," said Deputy Sheriff Fahey flashing his badge.

Fahey and his fellow deputy took Wayne Poor, 32, of nearby Edinburgh to the Sangamon County Jail, where Poor was held without charge. Poor said he had been released from a federal penitentiary two days earlier and had come to Springfield to report to a probation officer.

Civil War Veteran Still Chipper at 111

FRANKLIN, Tex. (AP) — Now that the fuss about his 111th birthday is over, Walter W. Williams, oldest of the nation's five surviving Civil War veterans, wants to go fox hunting.

Williams, a wrinkled little man, was chipper at his birthday party yesterday. He sat on the porch of the weather-beaten old farm home where he lives with his 79-year-old wife and grinned as the yard filled with children, grandchildren, great grandchildren and great great grandchildren.

Williams couldn't blow out all the candles but happily ate a piece of the four-tiered cake.

He joined the Confederates when he was 22 and became a forage master for Hood's Texas Brigade. His advice to younger men: "If more of you would get along with your wives better you'd live a lot longer."

Talks on Mexico Given At Meeting of PTA Unit

A theme on "Our World Neighbors" was carried out when Mrs. Esther Hudnall gave a talk on her trip to Mexico last summer at a recent meeting of the Glenwood PTA. Pictures were shown by the speaker and Mrs. Viola Rinnert and they also showed a number of articles of interest from Mexico.

Girl Scout Carol Cluff led the audience in the pledge of allegiance to the Flag and devotions were by Miss Alice Dome. Mrs. James Crabtree announced 266 members enrolled in the organization. Mrs. William Parmer Jr., announced plans for a bake sale following the December meeting. Plans also were made to sell apples to the school once a month. The first grade room, taught by Mrs. Louise Lister, won the award for having the most parents present.

Children Set Fire To Haystack, 2 Die

MCARTHUR, Ohio (AP) — Seven children, none more than 6 years old, were building a haystack in a pig pen—and one little boy had some matches.

He set the hay afire. The children were quickly trapped.

Their parents, Mr. and Mrs. Oakey McNealy Sr. and Mr. and Mrs. Allen Browning, were enjoying a Sunday visit in the McNealy's farmhouse near this southern Ohio town. They heard the children scream.

They ran to the pig pen and pulled the five Browning children to safety. But 4-year-old Oakey McNealy Jr. fell back into the fire as his parents' hands grasped for him. He burned to death.

They managed to get 3-year-old Dolores Ann McNealy from the pen but her dress was burned from her body. She died in a hospital a few hours later.

Thrill Maker from start to stop
(That's T.T. Dynaflow*!)

SOMETIME soon—like this week—you ought to try a Buick with Twin-Turbine Dynaflow.*

You ought to try it just to be familiar with the great advance in this fully automatic transmission that Buick engineers have accomplished.

You ought to try it just for the fun of bossing a drive where you don't do a blessed thing but steer and press the gas or the brake pedal as you go.

But, pure and simple, you ought to try it for thrills.

We mean the thrill of instant getaway response—with *two* turbines doing the job that one did before.

We mean the thrill of whisper-quiet acceleration—where you barely hear the sound of power build-up, or of flowing oil at work.

And, most emphatically, we mean the thrill of perfect and sublime smoothness from start to stop—the thrill of moving from standstill to and through all travel ranges in one, progressive, infinitely smooth forward "carry" without a gear ever shifting or a clutch-pedal pushed—the thrill, rarely found elsewhere, of silky smoothness in *deceleration*, too.

Will you be our guest at a sampling of a Buick with TT Dynaflow?

Will you try the sweetest, the smoothest and the simplest-to-operate automatic transmission yet devised—and powered by the highest-compression engines in Buick history, including the world's newest V8 SUPER and ROADMASTER models?

Drop in on us this week and we'll be happy to accommodate you.

Government of Men

One point of conflict in the clash between former President Truman and congressional authority last week existed long before the Communist conspiracy and will exist long after the conspiracy has worn itself out.

The issue between executive and legislative authority is a hardy perennial

The rights of executives and former executives relative to the rights of Congress never have been defined.

There are no constitutional or statutory laws governing these rights Thus, there is no clear way to settle the disputes that inevitably arise in the process of conducting the affairs of government

When Mr. Truman claimed to have ample legal precedent for spurning the order of a congressional committee to appear before it because he was a former president and could not be forced to testify, he merely was stating an opinion.

On the other side of the issue is equally strong opinion that Mr. Truman can cite no proper precedent at all.

This is one of the areas of government in which procedure has not been established positively by law and probably never can be established

It is one of the areas in which government is conducted by men, not by laws.

Historians have pointed to the wide range of attitudes between presidents and congresses in the United States as proof of the elasticity of government here.

The handling of public affairs, particularly in this most difficult of all federal relationships, becomes a reflection of the character and attitude of the leaders of Congress and the occupants and former occupants of the White House.

They're Just Apprentices

Most of the elections in the Philippine Islands have been marked by violence, including many deaths as factions battled with knives and guns. There had been open predictions that the recent Presidential election would be gory indeed.

Yet this election passed with surprising and of course commendable decorum. Of course, a [illegible] half dozen persons were killed in a clash just outside Manila. Armed masked men invaded voting precincts and stole ballot boxes There were minor fights in the streets. And of course the adherents of Elpidio Quirino, Liberal party president, and of Ramon Magsaysay, his opponent, hurled insults and challenges and wild charges back and forth, to a degree surpassing some heated contests on our own continent.

There were reports that President Quirino released dangerous criminals from prison just before election, to crack the heads of the President's opponents Also cited was his use of public funds to grease the voting hands of many citizens.

Yet these were phases of what we on this side of the Pacific are pleased to call the democratic process. Some of our own election campaigns are more civilized, less primitive, not so emotional, and of course more intelligent. Yet the distinctions are largely in degree rather than in principle

It is a familiar custom for candidates and their backers in the U S. to say and do many things which in retrospect will seem childish and very, very petty. Thus we can hardly don a saint's hood in recriminating against the Filipinos who, after all, are just fledglings in democracy, and we must not be too impatient, also, with some European countries, long of the monarchist tradition, which are laggard in reaching our own height of perfection in working the machinery of self-government

But Don't You Try It

Nothing tests a little taxpayer's composure like stories about big taxpayers settling the government's claims against them for a few cents on the dollar

These are some recent examples from U S. Tax Court in Cleveland All of them concern gamblers

A tax debt of $93 733 settled for $37,005

Penalties on this debt of $9,784 paid off for only $3 763

A debt of $20 230 settled for $18 845

A claim of $35 545 whittled down to $5,075.

A claim of $12 250 settled for $4 075

These weird transactions between the federal government and its big taxpayers jangle the nerves of little taxpayers because the little taxpayer is jealous

He is jealous not only of the larger incomes reflected by the tax claims but also of the larger influence reflected by the settlements.

The little taxpayer has a gnawing conviction the Washington publicans are bleeding him to death when he lacks enough money to have the furnace repaired after they've taken their share, but he keeps his mouth shut.

He does not hire a lawyer and wait for the marshals. He pays what he owes more or less cheerfully, but he hates to be made to feel like a sucker by news of tax settlements bestowed on gamblers who don't aim to pay anything voluntarily.

The coach hated to be critical of the halfback at that particular time, but couldn't refrain from pointing out to him that if he had been in the proper position on the last play he'd have broken his left leg instead of his right.

Ike To Need Big Umbrella

By James Marlow

Seeks Course Satisfactory to All in GOP

WASHINGTON (AP)—Opening the kind of umbrella under which all the Republicans will want to take cover calls for a magician. President Eisenhower has assigned himself the job in 1954.

He hopes to develop a program, he said recently, which will serve as a real umbrella under which his party's candidates can operate in the 1954 election year. A dynamic foundation, he called it.

Just what is his program for 1954? After almost a year in office there are parts of it which he probably doesn't know himself, yet. On taxes, foreign trade, agriculture, for instance.

In 1953 he created a batch of commissions to help him put together a program he could present to Congress. Only those dealing with housing and farming may report by the time Congress returns in January.

He's in trouble with some of his own Republicans if he suggests a farm program radically different from the present one Some Republicans will fight him fiercely if he suggests raising taxes

If by any chance his foreign trade commission should recommend lower tariffs, he is in trouble with those Republicans who consistently want higher ones.

In short, he may find his umbrella not big enough. Former President Truman had the same trouble with his Democrats.

The time is rapidly approaching when he must make recommendations to Congress Republican leaders of Congress have been called to the White House Dec. 10-12 to talk over the program.

By the end of 1954, Eisenhower will have been president almost two years, which should be long enough for any administration to show what it can do. Here are some of the promises, and the performance, to date:

At home—

He promised to reduce government spending. (The administration and Congress cut 13 billion dollars off the budget estimate of President Truman). Eisenhower dropped wage and price controls and promised to check inflation. (Living costs have continued to rise and are at a peak).

He talked of balancing the budget (Aides now say it may not be possible before uly 1, 1955. He talked of reducing the public debt, which was at 265 billion dollars when he took office. (It's now almost at the legal limit of 275 billions and when Congress returns he may ask it to permit the government to go further into debt by raising the limit).

He promised to work toward the "earliest possible solution of the tax burden." Tax cuts scheduled to go into effect Jan. 1 were agreed upon by Congress before Eisenhower took office. In fact, he may ask Congress for some kind of tax increase, as he did ask for a six-month extension of the excess profits tax.

He made elimination of the budget deficit "the first order of business." (Next year it may be eight or nine billions). He promised to "proceed promptly" to amend the Taft-Hartley labor law. (Nothing done on this and Martin P. Durkin quit as secretary of labor in disagreement over procedure).

Eisenhower promised a new farm program. It may be unveiled early in 1954. He has urged that social security coverage be extended to 10½ million more people and seems sure to recommend this next year.

He made good on his promise of a new loyalty program to get rid of security risks in the government He promised a review of the government tax structure and set up a study group for that. With congressional approval he reorganized a number of government departments and set up a commission to study further improvements.

He promised statehood for Hawaii. (The House approved but the bill got snarled up in the Senate, which may act next year).

Foreign—

He promised to work for the end of the Korean War (It ended, but in an uneasy truce). He urged greater unification in Western Europe. (Western Europe still hasn't set up the single European army).

He promised to help this country's allies. (He pushed foreign aid through Congress, although less than he asked, boosted help for the French in Indochina, strengthened the armed forces in South Korea, gave free food to the East Germans)

Peace with Russia appears no nearer.

Another Happy Accident

By Jerry Klein

That frequent boon to science—the "happy accident"—has come to the aid of the fighters against cancer. The California Division of the American Cancer Society has been told that a new tissue-growing technique, discovered by accident, is aiding in the war against cancer.

Dr Chauncey Leake, director of the University of Texas Medical School, told the Californians that the new discovery enables researchers to grow cancer cells under controlled conditions. Dr. T. C. Hsu accidentally put some cells in a solution containing less than the normal amount of salt. This caused the cells to flatten and swell, making individual chromosomes visible for the first time.

This accidentally discovered technique makes it possible, Dr. Leake declared, to count the chromosomes—the mysterious elements involved in reproduction and heredity It is this chromosome count which determines the extent of the cancer nucleus in otherwise normal cells.

This happenstance was by no means the first time that accident has come to the aid of medicine Frequently the earnest scientist has plodded methodically ahead in research only to achieve startling results when he has done something "wrong"

It even happened to the great Louis Pasteur. While studying chicken cholera in 1880, the French bacteriologist injected fresh germs into chicks and they always died.

But one day Pasteur accidentally used germs which were several weeks old and therefore weak When these germs were injected the chicks got only a slight touch of the disease and then recovered Pasteur, who as a schoolboy had been graded "mediocre in chemistry" had accidentally discovered the life-saving principle of preventive vaccination

The discoverer of the X-ray was the Nobel prize winner, Wilhelm Roentgen A bit of unshielded radium was accidentally left where it could cast a shadow on a photographic plate Thus again by chance Roentgen made one of the greatest medical discoveries of all times

Then there's the case of the British physician, Alexander Fleming. He was working with some germ colonies when he accidentally contaminated one of them with mold.

However, Fleming noticed that in the presence of the mold, the germs had perished. And so penicillin was born

A French doctor, Rene Laennec, was walking in the street one day when he noticed a group of boys playing around a pile of lumber He saw one boy tap the end of a plank while a playmate listened with his ear to the other end of the board.

It immediately occurred to Dr. Laennec that this method of hearing sound vibrationss would have an extremely valuable application to medicine. Now imagine a doctor's ear at one end of the sounding board and a patient's heart at the other, he said to himself.

And so he made what today can be found in any doctor's satchel—the stethoscope.

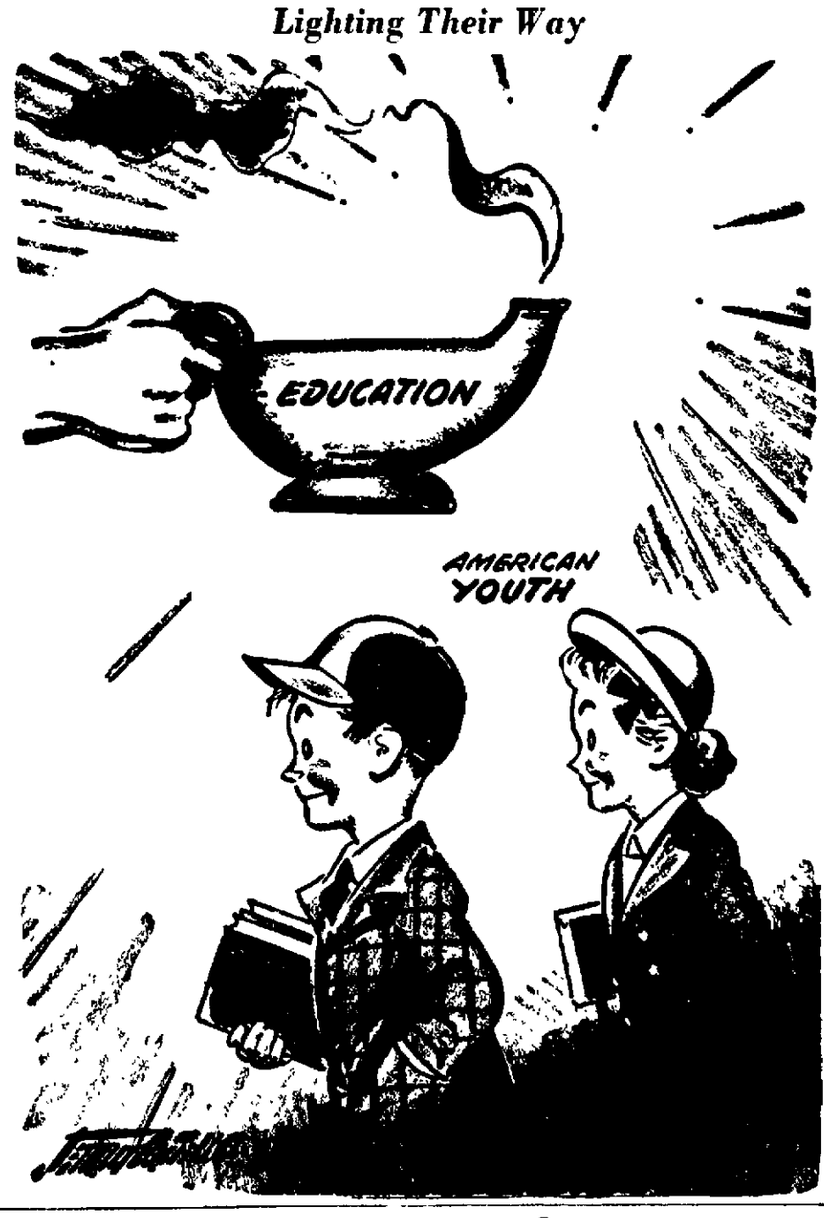
Lighting Their Way



All Red Suspects Remained on Payroll

By Edward K. Nellor

All the individuals named in the 1945 Federal Bureau of Investigation report on Communist espionage in the United States have had one thing in common.

None was ever fired from the government payroll as a result of FBI distribution of the document to high government agencies, including the White House.

Fifteen of the more prominent officials named in the document—and there were scores mentioned all together — kept their jobs for as long as four years after the FBI had reported on their activities and, in some cases, after several congressional committees had interrogated them.

Also, Harry Dexter White, the individual whose activities generated the latest explosive set of Washington charges, is also not alone in being named as a member of a Soviet espionage ring to wind up being praised by high government aides.

-:-

HAROLD GLASSER, also a former Treasury Department official, held a high post for two years after he had been mentioned in the FBI roundup of alleged espionage activity. He got, when he resigned in December of 1947, two letters of praise for his work and regret over his departure from the payroll.

One was from former secretary of the treasury, John Snyder, the other from Dean Acheson, former secretary of state

Glasser when later called before the Senate Internal Security Subcommittee refused 113 times to reply to questions, establishing a reputation as the man with the second highest number of trips behind the Fifth Amendment in order to avoid self incrimination

The record belongs to Nathan Gregory Silvermaster, a government employe from 1935 to 1946, who pleaded self-incrimination 178 times in one session before a House committee.

Silvermaster stayed on the job after being named in the FBI report, accused by ex-Red spy Elizabeth Bentley and by the Communist espionage courier, Whittaker Chambers.

Another is William L. Ullman, former Air Force major, and longtime government employe, who stayed on the federal payroll until 1948 despite being charged frequently in official reports as a member of an espionage ring

Ullman and Silvermaster jointly own a construction business in Harvey Cedars, New Jersey.

-:-

LAUCHLIN CURRIE is another former government employe who was named in the 1945 FBI report. He worked in and out of the White House, during the war, traveling to China as presidential fact-finder for the late Franklin D. Roosevelt in 1943-44.

He resigned from the government in 1945 and is now economic adviser to the Colombian government. With a wartime stature the equivalent of White and Glasser, Currie has nevertheless escaped the repeated congressional grillings some of his colleagues have undergone.

Victor Perlo who was charged in the FBI report in 1945 with having his own Soviet espionage net, worked for the government for two years in the wake of the FBI report before resigning.

Robert T Miller did not quit until 1946; Abraham George Silverman in 1945, Charles Kramer in 1946; Edward Fitzgerald, 1947; Harry Magdoff, 1946, Michael Greenberg, a British citizen, former White House aide, 1947, Donald A. Wheeler, 1946.

All were named in the FBI report of 1945. None was asked to depart from the federal payroll as a result.

Some were quizzed about their associations as far back as 1943 when Congress first established standards of loyalty for government employes.

The Draft Isn't Choosy

By MARK DANA

Rear Admiral Lamont Pugh who is surgeon general of the Navy, well knows the tribulations caused a few months ago by his sister service, the Army, in drafting doctors for military medical service Suddenly the Army found itself with 500 surplus doctors on its hands yet with the draft machinery going full blast roping more in.

Admiral Pugh is endeavoring to clarify the general idea, long discussed, of having the armed services finance the medical education of young men, get regular medical schools instead of military schools, so that these doctors would be both ready and obligated (and presumably willing) to get into uniform in case of some future national emergency

The Admiral, addressing the Association of Military Surgeons in Washington the other day, said he "abhorred" the idea of drafting doctors No doubt he is aware that most other people abhor the idea of drafting anybody

There should be no difficulty, if the military services so wish in setting up a system for financing medical, legal, journalistic, engineering, teaching, ministerial and other professional education of men who would remain available for emergency military service The basic idea already is in operation in the ROTC system.

Difficulties might arise when men who have paid for their own education are summoned to service along with the financed ones, to be sure. Yet if the present cold war becomes a hot one, all the signs indicate that every warm body will be called into service, regardless of who paid for education—or even with the wholly uneducated being welcomed with eager arms.

The Once Over

By H. I. Phillips

Facts? Help, Police!

President Eisenhower says he is sure that when the American people are given true facts they can be depended on, in their wisdom, to give him support. Our report is, "Wanna bet?"

You're on dangerous ground, Ike. After more than twenty years of the buttered-up fact, the glossed-over truth and a steady diet of strange economics and philosophies, the American people are in a condition where they hate sudden facts.

Every fundamental teaching and belief has been pretty well scorned, laughed at and dismissed as old-fashioned. Solvency, thrift, economy, logic and straight thinking have taken a beating.

-:-

Debt limits were declared bad for man or beast, thrift was sneered at as absurd, the idea of making both ends meet was treated as a gag and nothing got a greater laugh in governmental circles for years than the old adage about saving for a rainy day

Great masses of people ate it up and were made happy Today, few things scare them more than the true facts of life. A reality can panic 'em

George Q Citizen has completely discarded the idea he shouldn't get into debt over his head, defer a luxury until he can afford it or look out for the rainy season

A generation has sprung up believing that all automobile customers are created equal, regardless of what the bank account may indicate and that every man, woman and child is entitled to a ranch house, an aluminum kitchen and the pursuit of longer vacations

Millions of voters are as chilled by a hard fact as a fellow on a free vacation in Florida when notified he must come back to work in Alaska

Don't be fooled, Ike The wisdom of the people is not as complete as you think There has been a long period of the gimme-gimme era in which the three most common American expressions have been "I should worry!" "So what!" and "Who cares?"

- -

You might be surprised at a correct count of the people who are concentrating on more money, shorter hours, larger shore cottages, a tip on the fifth race, a limousine that can be owned outright in eighteen months, lucky bucks, Irish sweepstake tickets, jukebox music and an overpriced bungalow that they can call their own at the end of twenty years.

A couple of hard facts, Ike, could upset all their calculations. Millions of voters have fallen in love with giveaway programs, subsidies, governmental first aid treatment, federal goosegrease and Aesop's fables pumped directly from the Potomac into any home So, don't put too much faith in the people warming up to facts.

The terrible thing is that you can stampede 'em in the wrong direction by a presentation of an open fact openly arrived at (Ya wanna ruin your 1956 chances by talking horse sense?! And doing no card tricks?!)

She died as Mother Mary Seraphim—and what beauty there is in such a name—at the age of 91 after 69 years in the Poor Clare Order of Franciscan Nuns . . . Christmas Seals Mailed Residents of City, County

Money From Their Sale Will Be Used in Battle Against Tuberculosis

Thousands of letters containing colorful Christmas seals went into the mail today to give every citizen an opportunity to help in Marion County's fight against tuberculosis. As in former years the sale is sponsored by the Marion County Tuberculosis and Health Association of which Mrs Walter E. Hane is president.

For the past two weeks the Association's headquarters at 195 Pearl St. has been a bee-hive of activity with volunteers from the Marion County Federation of Women's Clubs and other organizations taking over the job of stuffing the 15,000 envelopes before deadline today.

SOME HAVE volunteered because they felt that it is a worthy cause, others are working because they want to say "thank you" for the free chest X-ray that they or a member of their family had as a result of the Christmas seal sale.

Among the clubs represented to date are: Advance, Altrurian, Art, Athenaeum, Clionian, Current Topic, Delphian, El Dorado Literary, Le Mercure, Literature Study, Mid-Century, Seventh District Nurses, Sesame, Tuesday Study and Woman's.

Other organizations and individuals that have given generously of their time to the work are: Dorcas Circle, Girl Scout Troop No. 3, with Mrs. Ted McArthur, leader; Girl Scout Troop No. 1, and Mrs. Harvey T. Gracely of 331 E. Church St.

ASSISTING WITH the annual Christmas seal sale may be new for some of the Federation's present members, but not so to clubs formed before 1911. That was the year the Marion County Federation of Women's Clubs conducted the first Christmas Seal Sale in Marion County. It was continued as a project until 1929 when the Marion County Anti-Tuberculosis League was formed.

Mrs. J. W. Freeland was chairman of the first sale when citizens contributed $150. The Federation continued to carry on the annual sale until 1929 when a Marion County and a Marion City Christmas Seal Committee took over the task. Contributions from the county, with Miss Margaret C. Adams as chairman, totaled $615.71 and contributions from the city, with Mrs. L. D. Smith as chairman, amounted to $152.70.

In 1930 the Anti-Tuberculosis League of Marion County was formed with Dr. E. L. Brady as president. Dr. F. E. Mahla served as chairman and contributions amounted to a record $2,151.05.

The league continued to conduct the sale and carry on the program of fighting tuberculosis without interruption, except having the name changed in the mid-'30's, to the Marion County Tuberculosis and Health Association.

In 1952, with Mrs. Hane as president and Robert R. Bush as chairman, contributions totaled $9,501.86.

The chairman for this year's sale, the 47th, is Judge Edward J. Ruzzo.

Georgia Woman Gives Birth to Quadruplets

Sylvester, Ga. (AP)—Mrs. Robert Dollson, 37-year-old wife of a Negro farmer, gave birth to quadruplets here but two of the babies died about 18 hours later.

The two who died were boys. Worth County Hospital attendants said the surviving girls were in fair condition last night.

Each of the babies weighed about 2 pounds 7 ounces and all were placed in an incubator immediately after their birth late Saturday night.

Mrs. Dollson, the mother of eight other living children, exclaimed, "I couldn't believe it was happening, but when they kept holding up one baby after another I had to believe it."

In diamonds...

CONSIDER COLOUR CAREFULLY

Colour, in diamonds, is one of four factors affecting price. Those with "body colour" of blue or white are more valuable than those showing yellowish tints.

The untrained eye does not readily detect these colour variations . . . but as experienced jewelers, we can show you these differences, and explain why price varies with colour.

The best diamond for your dollar is what you want. You will understand real diamond values better after you have seen our new and easily understandable "KNOW YOUR DIAMOND" presentation. It takes just a matter of minutes . . . You'll never regret having all the facts before you buy!

Godfrey Gets Four Shots at Deer in Michigan, Misses

DETROIT (AP) — Radio-television performer Arthur Godfrey missed four shots at bucks on the opening day of Michigan's deer-hunting season yesterday. He said he would try his luck again today.

His companion, Gen. Curtis Lemay, commanding general of the Strategic Air Command, fired shoulder to shoulder with Godfrey and he missed too.

Godfrey, who is still recovering from a hip operation, used a jeep to get around the hunting area in Lupton in northern Michigan.

Godfrey's hunting party included Secretary of Defense C. E. Wilson.

WAREHOUSE STRIKE

CINCINNATI (AP)—Warehousemen today struck six warehouses of the Wholesale Grocers Assn. serving 1,330 independent groceries in the area. Joseph Wira, business representative of Local 661 of the AFL Warehousemen and Teamsters Union said the men wanted wage hikes of 14 to 19 cents an hour. He did not say what their present hourly pay was.

Woman Nabs 'Gator As Six Men Look On

DAYTONA BEACH, Fla. (AP)—An unidentified woman yesterday lassoed a four-foot alligator as it crawled along a city street.

A half dozen husky males, kept at bay by the creature's gnashing teeth and slashing tail, just watched.

Daytona Beach Patrolman Jack Lynday, called to the scene, told the woman: "You've got more nerve than I have."

He didn't get the woman's name He called the sea zoo here and an attendant carted the creature away.

Hawaii Vacation Over for Shoulders

ST. LOUIS (AP) — Former Police Lt. Louis Shoulders, who broke the Bobby Greenlease kidnaping case, arrived home last night after a vacation in Hawaii.

Shoulders, who said he was not called to testify at the kidnapers' trial at Kansas City starting today, wants to divorce his wife and marry Miss June Marie George, who accompanied him on his trip to see his son in Hawaii.

When reporters questioned him about the kidnaping case, he snapped:

"Go away and leave me alone. I have been patient enough. Now leave me alone."

Shoulders, on his arrival in San Francisco, said he was going to try to get a divorce from his wife here. "I'll make a settlement with her," he said. "We own a piece of property jointly and I'll give it to her."

GOP

(Continued from Page 1)

ment against Bender for senator has cropped out and leaders look to Bricker to prevent party discord.

Seek Solid State

The leaders want to preserve their party strength for the November election next year. They expect the Democrats to have a strong ticket headed possibly by Gov. Frank J. Lausche and Thomas A. Burke, former Cleveland mayor appointed by Lausche to Taft's Senate seat.

Burke's appointment runs to Dec. 15, 1954. The November election that year will determine who serves out the remainder of Taft's term that expires Jan. 3, 1957.

The GOP Executive Committee of the 10th Congressional District in southern Ohio has urged Atty. Gen. C. William O'Neill to run for senator. O'Neill previously was regarded as a frontrunner in the field for governor. He has declined comment on the developments.

Bender Wants Rhodes

Associates of Bender assert he prefers State Auditor James A. Rhodes, former Columbus mayor, on the ticket as a candidate for governor. Both are known as rough and tumble campaigners who could give Democrats a rough time. Rhodes has yet to disclose his plans.

Others regarded as prospective starters for governor or senator include:

Robert A. Taft Jr., former Gov. Thomas J. Herbert, former Lt. Gov. Paul M. Herbert, national Mobilizer Arthur S. Flemming. Some of them also are regarded as gubernatorial timber, along with O'Neill, Lt. Gov. John W. Brown, Secretary of State Ted W. Brown and State Treasurer Roger W. Tracy.

Ted Brown generally is regarded as a better prospect for another term as secretary of state. Tracy, looked upon as a repeater, could find himself opposing former State Auditor Joseph T. Ferguson next November if reports are authentic that the doughty Democrat intends to seek that office.

Coroner Rules in Death Of Youngstown Couple

YOUNGSTOWN, Ohio (AP)—A verdict of murder and suicide was returned by Coroner David A. Belinky yesterday in the death of a young south side couple married just two months ago.

He said Leonard Stewart, 26, strangled his wife of the same age Saturday and then killed himself 12 hours later by firing a bullet into his abdomen.

Rangers Battle Forest Fire in Southern Ohio

PORTSMOUTH, Ohio (AP)—Ohio's natural resources chief today flew to the scene of the largest forest fire in the state this fall, 15 miles due west of here.

When Director A. W. Marion left, the fire had consumed 285 acres in forest. Half the acreage is in the Shawnee Forest and the rest is owned privately. Cause of the fire was unknown.

Foresters said they believed the fire is under control for the time being.

Marion said his forestry workers bulwarked by about 100 volunteers from Portsmouth worked all last night trying to isolate the fire. Marion and his assistant, Jim Wells, were at the scene last night.

Marion said the fire danger throughout Ohio now is more serious than it has been for some time. Only Friday the state wildlife council postponed opening of the bird hunting season for at least one week because of forest fire hazards.

"As long as the forests remain in the same condition, there won't be a hunting season," Marion said today.

Up to Nov. 7, the state has lost 3,698 acres of forest in 561 fires. Most of the fires were small and easy to control because there were no winds to spread embers.

But Marion expressed fear the fire on the Adams-Scioto County line could get out of hand this afternoon as winds are forecast for that area.

The State Highway Patrol has been alerted to report immediately to Marion's department any smoke or fire. Marion said the governor has given him permission to call out the Ohio National Guard

Sum of $700 Reported In Annual CROP Drive

Special to The Star

UPPER SANDUSKY — Richland Township, first Wyandot County area to complete the annual CROP program drive, collected a total of $717.54 by a report filed today with the program chairman, Rev. Frank McMillen of Nevada.

Rural collections in the township included corn, wheat and soybeans valued at $294.94. Cash contributions in the rural sections totaled $328.50 and cash collected in the village of Wharton totaled $91.10. Co-chairmen of the township campaign were Dewey Plott and Howard Cole. Girls of the senior class at Wharton High School made the village canvass. Rural area solicitors were Arthur Rader, J. B. Kear, Ray Plott, Russell Huston, Homer Lutz, Russell Robison, Herbert Wykes, Dale Kear, Donald Wood, Morrel Shane, Roy R. Price, Merritt Eatherton, Ralph Bash, Carl Kimmell, Lloyd Ward, Hearl Brashares, Huston DeLong, Clarence Huston, Floyd Searfoss and Robert Motter.

Plant Break-In Reported

A break-in and a theft of a fender skirt from a car were reported to Marion police over the weekend

The break-in was at the Marion Iron and Metal Co. office on W. Center St. It was reported to police at 10:42 p.m. Sunday by Newman Browarsky, owner of the company. Police said a door was pried open to gain entrance. Nothing was reported missing.

The fender skirt was stolen from a car owned by Ray Harty of 301 Franklin St. sometime Saturday night. He reported the theft to police at 1:07 p.m. Sunday. His car was parked in front of the Trinity Baptist Church, he said.

PROSPECT PTA TO MEET

Guests peaker for this Thursday night's meetng of the Prospect PTA will be Professor Earl C. Metz of Capitol University who will talk on "School Needs." A program will be held for the children who attend with their parents, according to program chairman, Mrs. Troy McClure.

6 Are Injured In City, County Auto Mishaps

Mother and Baby Hurt In Intersection Crash At Center, Park Blvd.

Six persons were injured in three of eight traffic accidents reported in Marion city and county over the weekend by city police and the state highway patrol.

Mrs. Willington Martin of 485 Ballentine Ave. and her year-old son, Stephan Ray, were injured in a collision at W. Center St. and Park Blvd. at 3:15 p.m. Sunday. Mrs. Martin was treated at City Hospital for injuries to her forehead and right arm. The baby required no treatment for a bruise over his right eye.

They were hurt when a car driven by Willington Martin, 18, and one driven by Clarence Yake, 26, of Delaware, collided. Police reported Martin was making a left turn from Park Blvd. onto W. Center St. and Yake was driving out of the Hy-Gold filling station on W Center St. opposite Park Blvd. Both cars were badly damaged, police said.

Woman Hurt in Crash

Another person hurt in city accidents was Lillian Simms of 1020½ N. State St. She, too, was taken to City Hospital and treated for head and chest injuries and released.

She was a passenger in a car driven by Morris Dozier, 27, of 680 N. Main St. which slid out of control into a utility pole at E. Fairground and Tyler Sts. at 5 p.m. Sunday. Dozier told police he was driving east on E. Fairground St. and attempted to make a right turn onto Tyler St. The front wheels of his car slid on some loose gravel and the car rammed into the utility pole, police reported. The car was extensively damaged.

Auto Damaged

The left front end of a car driven by LeRoy Williams, 22, of 603 Grant St. was damaged when struck by another car driven by Robert Hayman, 28, of Richwood at Hocking and Senate Sts. at 1:36 a.m. Sunday. Police reported Williams was stopped on Hocking St. and Hayman was eastbound on Senate St. No damage was reported to Hayman's car.

Neasen Morgan Reebel, 19, of near LaRue was cited into Municipal Court on a reckless driving charge following a collision in the 200 block on N. Main St. at 12:17 p.m. Saturday. Reebel's car struck the rear end of a car driven by Paul L. Sloats, 39, of 507 Mary St. Police said Sloats was stopped waiting to make a left turn and Reebel was unable to stop in time to avoid an accident.

Parked Car Struck

A car parked in front of 299 E. Center St. and owned by Mary Swan of 299½ E. Center St. was damaged when struck by a car driven by Harold W. Rider, 42, of 208½ S. Main St. at 10:34 p.m. Saturday. Police said there was very minor damage to both the parked car and to Rider's car.

Cars driven by Vernon B. Hudkins, 29, of 136 Hill St. and Dwight E. Wilcox, 31, of 751 Bellefontaine Ave. were damaged slightly in a mishap at S. Main and Columbia Sts. at 8:46 p.m. Saturday.

The rear end of a car driven by Leo L. Simpson, 33, of 334 Willow St. and stopped at Mt. Vernon and Cummins Ave. was damaged when struck by a car driven by Phyllis M. George, of near Marengo at 3:10 p.m. Saturday. Miss George's car was also damaged, police said.

Three Hurt in Collision

Three persons were slightly injured in the one accident in Marion County reported today by the state patrol. The accident happened at "suicide corner," the intersecton of State Route 95 and 98 Sunday at 12:35 p.m.

Cars driven by Clifford Mulvaine, 69, of near Richwood and Mrs. Patricia Ann Phillimore of Crestline collided. Mrs. Phillimore was charged with failure to obey the stop sign on Route 98.

Both cars were considerably damaged and had to be towed away from the accident. Mrs. Dora Mulvaine, riding in her husband's car, received a shoulder bruise. Mrs. Phillimore suffered a bruised knee, and her daughter, Patricia Ann, 5, had a bump on the forehead. None of the injured persons required treatment.

Mrs. Phillimore was issued a citation to appear in Municipal Court Nov. 25 to answer the charge.

Angered Man Kills Self, Wounds Grandmother

BALTIMORE (AP) — Police said Arthur E. Cobb, 28, shot and wounded his 74-year-old grandmother yesterday, then killed himself after she refused his request for cartridges so he could "shoot his cousin."

Cobb's death was listed as suicide by Dr. Russell S. Fisher, chief medical examiner.

Mrs. Charles M. Nicholson the grandmother, was shot in the chest with a .22-caliber pistol, the bullet passing completely through her body. Her condition was not serious.

WARRING ON BRITAIN. American Actress Yolande Donlan, "dumb blonde" of a dozen London stage hits, is pouting at Britain and says she's coming home to the United States. Shapely Yolande, who was all set to play Peter Pan in the annual Yuletide production, says the British Labor Ministry has refused her a working permit in favor of an English actress. The role is a prize plum for London performers.

White

television program, was asked whether Brownell's charges in the White case were the first of a series. He said that so far as he knew there were no other similar ases pending. Asked if he knew about the White case in advance, he replied that the GOP committee had been informed shortly before Brownell first made the charges Nov. 6.

On Capitol Hill, observers said that if additional charges do develop to prolong the attack on former Democratic administrations, Democrats might be forced into a position of giving President Eisenhower's legislative proposals the kind of cool reception that Truman's got in the GOP-controlled 80th Congress.

It is plain that no major Eisenhower proposal can be enacted in the almost evenly divided Congress without some Democratic votes. Just how willing these Democrats will be to yield the necessary votes remains to be seen.

Russell Backs Truman

It was significant perhaps that such Democratic critics of Truman as Senators Russell of Georgia and Ellender of Louisiana have reacted adversely to Brownell's charges. Russell said the White case was revived "in an unseemly dash to catch the headlines."

Ellender said that before the Republicans are through, they are going to find they have committed a blunder, particularly in abortive efforts to require testimony from Truman.

"I'm sure Harry Truman hasn't anything to hide," Ellender declared.

From party members more charitable to Truman's political views came new blasts at the Republicans.

Sen. Monroney of Oklahoma said the GOP had picked up the tactics of Sen. McCarthy (R-Wis) and made them a part of the party's campaign creed.

'Star Has Set'

"I've been around the country extensively and it's my view that McCarthy's star has set," Monroney declared. "The 'big fear' is dead and they are not going to scare anybody with the White case and others they may bring up.

"You can't make people afraid with a dead horse."

Sen. Gore (D-Tenn) said he believes the Republicans have crossed the bridge and can't turn back.

"This case and all the others can't last for a year, until the next congressional elections," he said. "But the Republicans are stuck with it and it remains to be seen what they will do with it."

Sen. Knowland of California, the GOP floor leader, said he doesn't believe the Democrats will carry the battle over the White case into committees when legislation is being written.

Boy Attacked by Youths

A 10-year-old boy was beaten with a board by two older youths Saturday evening and was taken to City Hospital for treatment.

The 10-year-old, whose name police did not know, told police that he was walking through an alley beside the B. F. Goodrich Co. store on S. Main St. when the two older boys, about 17 years old, walked up to him and asked him his name.

When he didn't answer them, they hit him wit ha board, he told police. Taken to the hospital in a police cruiser, the 10-year-old was treated for a cut on the head and released.

Ships Collide, Fear 20 Dead

Italian Freighter Hit in English Channel, Sunk

DUNGENESS, England (AP) — Twenty seamen were feared killed today in a mysterious predawn ship collision that sank the 2,745-ton Italian freighter Vittoria Claudia in the English Channel.

The 7,264-ton French cargo steamer Perou, which crashed with the Vittoria Claudia, steamed away later with little damage and no reported casualties.

The Italian ship, whose home port was Genoa, reportedly carried a crew of 25, but only five survivors had been picked up by rescue vessels some five hours after the disaster 21½ miles off this southeast England port.

U. S. Air Force helicopters and planes, a British helicopter and a swarm of rescue boats reported spotting numerous bodies floating in the wreckage-strewn channel waters.

"It's a mystery at present how the collision occurred for the weather was clear as far as we could see," reported David Oiller, a veteran sea rescue worker.

"The sea was dead calm with no wind," he continued, "but picking up survivors was made more difficult because the water was covered with a large amount of wreckage and a lot of oil."

Assembling Plane Daily, Official at Struck Plant Says

LOS ANGELES (AP)—North American Aviation, Inc. — strikebound now for the fourth week—reports a plane a day has been assembled since the strike began Oct. 23.

J. S. Smithson, manufacturing vice president of the firm, said 25 planes have been completed and 47 have been delivered to the Air Force and Navy from the Los Angeles, Fresno, and Columbus, Ohio, plants since the CIO United Auto Workers walked off the assembly lines. The company makes the F86 Sabre jet, the F100 Super Sabre jet and the T28 for the Air Force and the FJ2 and FJ3 Fury jet for the Navy.

Smithson said 21.6 per cent of production and maintenance workers were on the job and that more are returning each day. He said 7,102 bargaining-unit workers were back on the job, plus 21,450 nonbargaining workers.

Los Angeles local 887 announced UAW-CIO west coast Representative John Allard, local President Paul Schrade, and Vice President Dick Cartwright left yesterday for the national CIO convention at Cleveland where they will urge adoption of a resolution calling on unionists everywhere to back the strikers.

The union is holding to demands which include a 26 cent hourly wage boost. The company has offered a four per cent boost over wages which have ranged from $1.42 to $2.32 hourly.

Wednesday and Thursday. Tomorrow, he will absent himself from CIO convention sessions to launch a good will tour of steel plants in this area with Board Chairman Ben Fairless of U. S. Steel Corp.

Those saying McDonald will be away from the CIO convention sessions most of the week conceded, however, that he will be around Friday when Reuther is expected to be re-elected to a new term to the CIO presidency.

Others, however, said McDonald may decide on a complete boycott of the convention after its early sessions.

Charges Favoritism

Little opposition appeared concentrated against Reuther. His report to the convention said the Eisenhower administration appeared to "channel its thinking and its actions into a rigid pattern of service to big business."

He said the CIO feared the Eisenhower administration may sponsor some form of sales tax at the new session of Congress. He voiced opposition, too, against measures changing the social security system.

"During the past year," he said, "much of what was accomplished in the two decades of the New Deal and the Fair Deal has either been destroyed or threatened with destruction."

Claridon Junior Class To Give Play Thursday

The junior class of Claridon High School will present the play, "Zeke and Daisy," Thursday at 8 p.m. in the school gymnasium Directing the production is Mrs. Creta Lusch, with Stanley Lawrence as student director.

Inside Labor

By Victor Riesel

Many of those who have refused under oath to deny that they were in Soviet espionage networks have for many years had friends in court—the Supreme Court, in fact.

RIESEL

This does not at all mean that there are, or have been, subversives on the high bench. It does mean that even our greatest judicial minds were incapable of coping with the subtleties and camouflage of the Soviet rings.

There are several justices who are in a position to help us put together the clues to the network which exploited them. To be specific, there is Justice Tom Clark. He could tell us about the little known, 18-inch-thick file which was hidden under the code name of "Gregory" in the Justice Department when Mr. Clark was U. S. attorney General.

—:—

THE JUSTICE KNOWS, of course, that the "Gregory File" had all the data necessary to indict Alger Hiss as a spy. The statute of limitations had not yet run out on the debonair comrade from Baltimore. Hiss could then still have been indicted and tried for betrayin ghis country.

Yet the then attorney general resisted the urging of his criminal division. Clark did not move for Hiss' indictment. Years later, Alger Hiss was tried—for perjury. As attorney general, Mr. Clark took his orders from the White House. He had every bit of evidence he needed. Why did he not move to try Hiss as a spy? What higher forces restrained this cabinet member? Who sabotaged this prosecution? Was it Clark himself? Or a higher-up?

There is another Supreme Court justice who may be embarrassed to learn that he was used by a friend of Alger Hiss. This is Justice Robert Jackson. He may recall, now that I make mention of the incident, that when he was attorney general of the U.S., he was asked by the late Sidney Hillman to recommend an attorney for the CIO's Amalgamated Clothing Workers Union.

—:—

TO WHAT MORE unimpeachable source can you go than to the head of the Justice Department? Well, Mr. Jackson recommended a very sophisticated gentleman by name of John Abt. Good, hearty character reference, too. So Mr. Abt was hired. Later it developed that John Abt was married to Jessica Smith, widow of Harold Ware.

Comrade Ware, a confidant in his day of the highest Soviet leaders from Stalin down, or up as you'd have it, was the suave fellow who planted the first important Communist-espionage cell inside our government. From that commie acorn, big espionage networks grew.

Mr. Abt's sister, Marion Bachrach, handled publicity for Communist Party. May still be doing so. I wouldn't know. They aren't exactly among my best informants. And now, you may ask, what about Mr. Abt himself? Well, let me report to you what he was asked by a Congressional probing committee

"Mr. Abt, in connection with your home, 444 Central Park West, did a meeting take place there some time during the war at which were present Victor Perlo, Elizabeth Bentley and several other individuals, the purpose of which was to make arrangements for people working in government to transmit confidential information to Elizabeth Bentley, who was then the head of an espionage ring in Washington."

—:—

JOHN ABT, who rose high in labor circles because of his original endorsement by an attorney general of the U S, refused to answer this question on the ground that it was his right under the Fifth Amendment to not incriminate himself.

In other words, he refused to deny tha his home had been used as an espionage center. To put some big, bold, black emphasizing lines under this last question, here is what can be found in several Congressional records:

"The head of the most important group of Soviet espionage agents with which Bentley has maintained liaison was Victor Perlo of the War Production Board.

"Members of this group were introducted to Bentley early in 1944 at the apartment of John Abt."

Now, why don't Supreme Court Justices Clark and Jackson tell us just who betrayed them? Who forced Clark to ignore the "Gregory File"? Who first introduced Abt to Jackson?

Let's take all this out of politics. Let's start tracking down the Kremlin crowd. And their sponsors in government.

CLOYD H. LINDSEY
Superintendent to Retire

Served 35 Years

Superintendent of Mails Cloyd Lindsey To Retire

More than 35 years of active service at the Marion Postoffice will come to an end for Cloyd H Lindsey, superintendent of mails, with the close of business Nov. 30. Then it will be Tampa, Fla. and the sunny south for the Lindsey's.

Mr. Lindsey's 37 years at the postoffice were served under four postmasters He entered the service as a sub-carrier on May 10, 1916, and was made a regular carrier Aug. 21, 1917 under Postmaster Frank Campbell, now deceased. He was transferred to clerk Jan. 27, 1923 under Postmaster French Crow, now making his home in Oakland, Calif., and was made foreman of carriers Aug 16, 1941 by Postmaster L. L. Lamborn of 234 Thew Ave.

—:—

HE WAS appointed superintendent of mails Sept 1, 1945 by Postmaster Homer D. Cole He also worked on city distribution for a few years and later transferred to the money order section.

He succeeded A. G. Uncapher as superintendent of mail and is the second postal employe to fill the position at the local postoffice Mr. Uncapher retired in August 1945 and makes his home at 514 E Fairground St.

Prior to joining the postoffice staff Mr. Lindsey worked at the Marion Steam Shovel Co. plant, now the Marion Power Shovel Co. for seven year. Before that he taught school in Wyandot and Marion Counties.

—:—

THE UNITED STATES was engaged in World War I and mail was being dispatched to and received from men in the armed forces when Mr. Lindsey entered the postal service. The staff boosted of 13 foot carriers and delivery of parcel post was done with a horse and wagon in the residental district while a push cart was used for deliveries in the business section. Deliveries were made twice a day to homes and four deliveries were scheduled for the business district. Lndsey carried the mail in the Oakland Heights district. All business was transacted at the postoffice building as there were no sub-stations.

Rural carriers made their deliveries by automobile in summer but relied on old Dobbin for getting them over the roads in the winter

He saw busy days around the office during the campaign of President Harding when senators, stage and screen stars and other notables made their way to Marion to visit the famous front porch, and the more recent years found him busy seeing that mail was dispatched to the boys in World War II and the cold war front in Korea.

—:—

NOW THERE ARE 22 foot carriers, four parcel post carriers and nine substitute carriers. There also are three sub-stations where patrons may be served.

Mr. Lindsey was born at Marseilles, Wyandot County and celebrated his 70th birthday Nov. 1 His retirement is in accord with the postal code which calls for the retirement of supervisors the first of the month following their 70th birthday. He came to Marion in 1909.

Mr. and Mrs. Lindsey live at 447 Windsor St. They have two children, a son, Harold living in Columbus and a daughter, Elon Lindsey at home. Mrs. Lindsey is the former Blanche Emptage of Marseilles. He is a charter member of Sojourners Lodge No. 653 F. & A. M. and a member of the Marion Chapter, National Association of Postal Supervisors.

Work around home and in his shop in the basement will keep him busy and the trip to Florida is being made just for enjoyment.

Mr. Lindsey, who is known to friends and associates as Tommy, was an honor guest at a gathering of approximately 80 present and former employes of the postoffice, Tuesday evening, Nov. 10, in the home service center of the Ohio Fuel Gas Co. Informal talks were given by several in the group and the evening was spent socially and in reminiscing. The honor guest was presented a number of gifts. Refreshments were served in charge of the employes council.

Thieves Take $11,000 From Woman in N.Y.

NEW YORK (AP)—An 82-year-old woman was chloroformed and robbed of $11,000 in her apartment last night, just a few hours after police reported the fatal stabbing of another octogenarian in her flat.

There was no indication the two cases were connected, with officers reporting no apparent motive in the slaying.

Mrs. Rosa Chronik, 85, a widow, was found dead in her E. 66th St. apartment yesterday. Police first attributed death to natural causes, but medical examiners said last night she had been stabbed several times, probably Saturday night.

Early today Mrs. Grace Ruotollo told police an intruder broke into her East Harlem apartment last night, struck her and chloroformed her and then took the money and her purse, also containing her bankbook.

She was quoted as saying she did not completely trust banks and kept only half her funds—another $11,000—in one.

Mrs. Chronik's body was found by a friend who called at her apartment to accompany her to church.

Bank books found in the apartment indicated she had a total of more than $25,000 in several local banks. Other memoranda found in the flat showed she had been dealing in the stock market as late as last week.

Survivors of Mrs. Chronik include a son, Dr. Joseph Chronik of Columbus, Ohio.

Burglars Loot Jewelry Store at Bowling Green

BOWLING GREEN, Ohio (AP)—Burglars who pried open the front door of the Mills Jewelry Store here yesterday took $15,675 worth of watches and rings but left untouched a safe holding $11,000 in diamonds.

Police Chief Guy Spitler said today the burglary evidently was a professional job. The burglars "passed up the cheaper stuff" and took 286 watches valued at $20 to $200 each, Spitler said.

2 Autos Damaged In Route 42 Crash

One no-injury accident in Morrow County, was reported today by the Marion Post of the state patrol. It happened at 4:10 Sunday afternoon on U. S. Route 42, three miles south of Mt Gilead.

A car driven by Chester E Hathaway, 59, of Cincinnati struck the rear end of a car driven by Russell E Hickson, 26, of near Marengo Both cars were headed north, but Hixson was turning left, according to patrol reports.

Hickson was given a citation to appear in the court of Justice of the Peace R. R Bennington Saturday on a charge of failing to signal for a turn.

Both cars were moderately damaged, Hickson's in the rear end, and Hathaway's in the right front end.

Lausche Picks New Executive Secretary

COLUMBUS, Ohio (AP)—Joseph J. Scanlon, a Cincinnati attorney and secretary of the state industrial commission, today was appointed executive secretary to Gov. Frank J. Lausche.

He succeeds John W. Keefe, also of Cincinnati, who resigned to become deputy director of the state highway department.

Scanlon is 40 and has been with the industrial commission since 1941, the last four years as secretary. In his new, $8,000-a-year post, he will handle clemency matters for the governor, in addition to other duties.

has succeeded Keefe. He became industrial commission secretary when Keefe was named executive secretary to the governor.

Reporter Traps 'Hero'

True Story Proves To Be Hoax, Publishers Misled

NEW YORK (AP)—Publishers of "The Man Who Wouldn't Talk" prepared today to continue selling the $2.75 book as a novel while offering refunds to the 10,000 persons who bought it as a true story.

Bennett Cerf, president of Random House, the publishers, acted yesterday after the weekend admission of the "hero" of the story that it was all a hoax.

Author Quentin Reynolds wrote the book as the story of George Dupre of Calgary, Alta., Canada. Dupre told a tale of torture at the hands of the Nazis during imaginary service in the French underground as a British spy.

Dupre broke down Friday under questioning of a reporter and said he had been carried away by a desire to prove to the young "that a man with faith can endure anything—even death."

Cerf said yesterday that a new printing of 2,500 copies now on the presses will be revised to include an explanation of the incident.

Reynolds yesterday said another explanation would be carried in the January issue of the Reader's Digest, which published a condensed version in its November issue.

Meanwhile, Dupre was reported confined to bed in Calgary. Robert Christie, novelist and a friend of the Dupre family, said Dupre had been given sedatives and added:

"I guess he will get over it in time. He's just suffering from a bad case of conscience."

Word of the hoax brought expressions of "fantastic" from Reynolds and "extraordinary" from Dewitt Wallace, the publisher of Reader's Digest. Random House also was bewildered.

Reynolds said he carefully checked Dupre's background and reputation before writing the story.

Both Reynolds and Wallace said Dupre seemed to have no desire for money, was surprised when told he would get part of the returns and said he would turn the money over to the Boy Scouts.

Dupre had told his story to countless Canadians, from Cabinet ministers to Boy Scouts, long before publication of the Reynolds story. Reynolds said yesterday of Dupre's motive:

"His whole belief is that the only way to combat evil is to have complete faith in God . . . He found out that as he invented experiences, the Boy Scouts and other groups he addressed listened to him with more respect. His story grew and grew until he didn't possess it any more. It possessed him . . . He is super-religious and this was his way to get his message across."

In Calgary Saturday, Dupre told Christie the story "just got bigger than I was" and that it "seemed the yarn was always being told by request."

Christie quoted Dupre as saying he was "truly sorry that I misled Quentin Reynolds and the editors."

"These men were kindness itself to me and beheved in me," Dupre said. "I don't know what I can do now to make up to them for what I have done."

Doug Collins, a reporter for the Calgary Herald, exposed the hoax after a photograph was produced by a Royal Canadian Air Force veteran showing the veteran and Dupre in Victoria in the RCAF at the time Dupre supposedly was in Nazi hands in France.

Later Dupre admitted never having been in France.

Science Shrinks Piles New Way Without Surgery
Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

Now this new healing substance is offered in ointment form for hemorrhoids under the name *Preparation H.*® The price is only 98c a tube including an applicator. Ask for it at all drug stores. And remember—if not entirely satisfied—your money will be refunded promptly. *Trade Mark

Now, more married women than single women have jobs!

TODAY, far more women are working outside the home than at the peak of World War II. And of the more than 19 million women employed in the U. S. in the summer of 1953, over 10½ million are married!

Many women work to support themselves and their dependents. Others are adding to the family income. Others work because they like to. Those who stay home to take care of children are finding more time to devote to community activities.

And life insurance is keeping pace and is constantly growing more flexible to meet new needs.

For example, in recognition of the economic importance of women, the life insurance companies are gearing their services more and more closely to the needs both of the woman in business and the homemaker. As a result, women, who have always had a large stake in life insurance as beneficiaries, today own about 50 billion dollars worth of life insurance—or nearly one-fifth of the total.

Women are buying life insurance for the same reasons as men—to help provide an income for their children, or for themselves in retirement years.

For almost every family, the needs for protection are constantly changing—and life insurance can be planned to meet these changes.

A suggestion: Have your needs or circumstances changed? Have you looked over your life insurance to see how it stacks up with your present way of living and the goals you and your family have set for yourselves?

HELLO, AMERICA. With a real military salute, 4-year-old Lee Kyung Soo, one of Korea's thousands of war orphans, leaves plane at naval air base in Alameda, Calif., with his foster father, Chief Boatswain's Mate Vincent Paladino. Paladino, 35 and a bachelor, was taking the boy home to New Rochelle, N. Y.

Ex-Secret Service Agent To Address Executives' Club

A former United States secret service man in Mexico before World War II and in the Far East during the war will be guest speaker at the November meeting of the Marion Executives' Club at 6:30 p.m. Wednesday at the Harding Hotel.

Arch F. Coleman, now a public relations advisor from Southern Pines, N. C., got his foreign experience as a clerk with a fruit company in Central America following his graduation from the University of Minnesota. He later was employed with an oil company in Mexico and still later was a heavy machinery salesman in Mexico City.

With this background, he was employed by the United States government shortly before the war as an assistant trade commissioner in Mexico City.

He earlier spent two years at West Point and just prior to the war was associated with the Office of Strategic Services. He did counter espionage work in Mexico to learn the extent of the Gestapo and Japanese intelligence services in Mexico.

During the war he was an instructor of espionage in the East and later established headquarters in Turkey where he organized undercover groups working out of Istanbul.

Bloodmobile Unit Will Be Here for 2 Days This Week

The last visit of 1953 for the Red Cross Bloodmobile Unit here will be Wednesday and Thursday, Robert S. Kraner, blood program chairman of the Marion County Chapter of the American Red Cross announced today.

On Wednesday, Nov. 18, the unit will be at the First Presbyterian Church and the following day at the Pollak Steel Co. plant. The hours are 11:30 a.m. to 5:30 p.m. Anyone in good health, weighing not less than 110 pounds and between the ages of 18 and 59 is urged to visit the center and contribute a pint of blood.

If you are planning to give a pint of blood as a Christmas gift to humanity, this week is the time, the chairman points out. Marion County failed to meet its quota last month. The quota, is 150 pints a visit.

Approximately 110 pints of blood are used monthly at the Marion City Hospital. This blood is provided free and without charge to patients, the Red Cross points out. Rumors that a charge is made are untrue, Kraner emphasizes.

Persons wishing to contribute are asked to contact the chapter office, 2-1653 and register for next Wednesday.

Grange Master Gives Report on Convention

Paul Snare, master, reported on the state Grange meeting in Cleveland recently at a meeting of Montgomery Grange in the hall at DeCliff.

Mrs. Dorothy Snare was elected lecturer to fill the vacancy made by the resignation of Clifton Wenig. Mrs. Cletus Uhl was elected Ceres. It was announced Montgomery Grange had received an award for entering the community service contest.

Proceeds of a cake walk were donated to the school for mentally retarded children. Mrs. Mabel Brady, home economics chairman, announced the following committee for refreshments at the next meeting: Mrs. Grayce Kennedy, Mrs. Laura Virden and Mr. and Mrs. Roy Peters.

Freedom To Play Within Limits

Modern Children Miss Big Back Yard

By HAL BOYLE

NEW YORK (AP)—If you were Santa Claus and could give every child in America one present, what would it be?

My choice would be a big old fashioned back yard for the child to grow up in. Do you remember the fun you had in one when young? If you have no such memories then life short-changed you. You missed some wonderful times.

The juvenile delinquent is a real problem kid today. Nearly every one of us normal adult delinquents is sure he is an authority on what is wrong with the modern child rebel—which probably only proves what smug crazy mixed up, middle-aged children we ourselves are.

"All the smart alec kids of today need to straighten them out is a few more trips to the woodshed," grumbles a leader of the punishment school. "To put any sense in their heads you have to start pounding at the bottom—with a razor strap."

"No, no," objects the self made sociologist. "Build them more supervised school playgrounds."

A third expert is in favor of putting a psychiatrist in every kindergarten but can you really find out what is wrong with a bad child by asking him. How would he know?

There isn't any answer," shorts the cynic. "It's all heredity. A born wrongo will live and die a wrongo. He's bound to go from reform school to jail.

But somehow I'd like to see my own solution tried out—give every child at least one wise-hearted parent, and that old-fashioned back yard in which to grow up.

All children, like all adults are yearning, would-be angels torn by devilish urges. All children, like adults want and need discipline as well as freedom in their lives. All children like adults must find a balanced compromise between their cravings for both responsibility and liberty to lead a happy life.

The trouble with a modern, supervised school playground is that it is often too supervised and paved like a city street.

A child is an animal who likes the feel of grass and ground under his feet, a place to play where someone he loves keeps an eye on him but still leaves him free to be the pirate or Marco Polo of his dreams. And what fills this prescription better than the old-fashioned back yard?

It should have a garden in summer and space to raise pets the child can love and feel superior to because they depend on him. It should have trees he can climb and discover a brave new world and be wide enough for a snowball battle in winter.

Let there be a woodshed and let it echo now and then when necessary with the measured sound of a razor strap applied in justice not in anger. But also let the woodshed be the clubhouse for one of those secret societies which boys form because they already want to belong to something bigger and more important than themselves. These are the birthplaces of patriotism.

In a big back yard a child can learn most of the lessons he needs and still run in to mama's comforting arms if he gets hurt in a tumble or a squabble. Where else can a child better enjoy both freedom and safety?

The sorrow of our growing cities is that we are crowding little box-like homes closer together, and the yards are so small a kid can't open his stamp album in one without brushing it against the house next door.

Maybe this is all sentimentality. But none of the kids I played with in the big old-fashioned back yards of my youth ever went to reform school or wound up in prison. None yet has found life a dead-end street.

Carey Church Sets 95th Anniversary

CAREY — December 6 will be the 95th anniversary of Christ Lutheran Church in Carey and plans for celebrating the event at a series of services are now under way.

Miss Pauline Ziegler, missionary to Liberia, Africa, will be the speaker at the morning worship service on Sunday, Nov. 22. That evening she will speak and present slides and moving pictures on the mission field.

The following Sunday, Dr. Paul P. Clouser of Middletown, Pa., a former pastor, will be the guest speaker at the morning service. Dr. George Miley of Columbus, president of the Synod of Ohio, will speak at the morning service on Dec. 6, the anniversary.

The following Friday evening, Dec. 11, there will be a banquet for all members of the church. Dr. Clarence Stoughton, president of Wittenberg College in Springfield, will speak on this occasion, which will bring the celebration to a close.

All former pastors have been invited to be present on Dec. 6 and Dec. 11.

Merchants To Prepare Decorations for Christmas

The Christmas season gets its first push Tuesday night at 7 p.m. when members of the Retail Merchants Division of the Marion Chamber of Commerce and workers from several local electrical unions will gather at the Ohio Fuel Gas Co. building on Leader St.

Their job is to clean, repair, and adjust all the Christmas decorations which will adorn the streets of Marion this season. With over 100 different pieces of equipment to be handled, the volunteers Tuesday will have a long job on their hands.

Employes of a number of Marion electrical companies and contractors have volunteered to donate their time to repair and check the electrical wiring in the decorations.

-:-

HELPING TEST the equipment at the Ohio Fuel Co. Tuesday night will be members from Local 688, International Brotherhood of Electrical Workers, American Federation of Labor. Lloyd Ross, business manager of the local, made arrangements with the Retail Merchants to have men work on the project.

Electrical workers from the following companies will participate in the program: Triple Service Electric Co., Willey Electric Co., Vaughan Electric Co., Cochran Electric Co., and Wente Electric Co.

Sometime during the week, members of Local 638 will prepare the wiring along the streets where stringers will be stretched. This work will be completed by next Monday when the decorations are to be installed.

-:-

WORKERS FROM the United Electric Co. and L. B. Morse will will also be on hand Tuesday night at the cleaning and repairing operations.

General Telephone and Ohio Edison trucks will be used next week. They will go to the Ohio Fuel Gas building, pick up the decorations, and go to assigned spots where the ornaments are to be installed.

The telephone and electric companies have agreed to furnish not only the trucks, but also the men to take on the job of putting up the decorations above the streets.

Letters have been sent to members of the Retail Merchants Association asking them to help in the project.

-:-

TEN PIECES of new equipment have been added this year. They are 10 pole placques, made of plastic and illuminated from the inside. These will be placed on utility poles on the streets. Some of the older placques which were used in the past, will be discarded.

Heading the arrangements for the decorations is LeRoy Clauer. He is chairman of the decorations committee.

Another piece of Christmas equipment which will be cleaned up Tuesday night is the Santa Claus headquarters. This will be placed on the Courthouse lawn to house Santa when he makes his visit here Nov. 25.

Also to be readied for installation are 46 stringers which will cross the Center and Main Sts. Four sets of bells will be placed above the streets to welcome persons entering town.

Location of the bells has been set at E. Center near the Marion Water Co. office; W. Center at Park Blvd.; N. Main St. at the Big Four Railroad tracks; and S. Main St. at the Ohio Edison Co. office.

Stringers will be spread between the two sets of bells on each street. The pole placques will also be located between the bells.

All decorations will be lighted Thanksgiving night and every night thereafter until taken down after New Year's Day.

Marion Man Arrested in Theft Of Auto From Garage in Galion

Gerald Edward Dunaway, 21, of Marion, formerly of Galion, was bound over to the Crawford County grand jury Saturday under $2,000 bond, and will face another hearing today in Galion Municipal Court.

The hearing Saturday was on a charge of operating a motor vehicle without the owner's consent, and the one today will be on a breaking and entering charge. Both charges are the result of the burglary and automobile theft at the Earle A. Wiener garage, 920 Harding Way West, Galion, early Friday morning. Galion police reported Dunaway signed a confession Friday afternoon following his arrest in Bucyrus in the early morning hours after he had been chased over rural roads by Crawford County sheriff's deputy.

Dunaway's Story

Dunaway told Captain George L. Cook, special investigating officer of the Galion police department, that he was the only person involved in the crime, police reported.

Dunaway's story to Captain Cook was that he had hitch-hiked from Bucyrus to Galion, and had been let out by a Galion motorist near the State Road intersection about 2 a.m. Friday. He said he walked back to the Wiener garage where he found a window near the rear of the building unlatched. He said he crawled through the window, and took keys from a board in the service department. These keys, 22 in number, were returned to their owner Friday noon after most of them were found in the Olentangy creek bed at the Dice Road bridge.

Takes 1951 Auto

One key fit a 1951 Mercury sedan which Dunaway drove away. He ran out of gasoline on the Winchester Road near the Dice Road southwest of Galion. Then, he said he walked back to the garage and took another car, a 1951 Ford convertible, and drove to Iberia where he stole license plates and returned to the garage. At this time, Dunaway said he took the cash register. Police found the $760 electric register in two parts in a ditch near the railroad tracks.

Dunaway found only about $3 in dimes, nickels and pennies, in the cash register. He said he then drove to Bucyrus where he ate his breakfast at a S. Sandusky Ave. restaurant. As he drove away, Bucyrus police picked him up and notified Galion police. He was brought to Galion shortly before noon Friday for questioning. Dunaway previously had been implicated in the theft of a station wagon from Nick Siclair and a truck from Roland H. Flowers at the Buckeye Frozen Food store.

Dunaway is unemployed. He told police he had been living at 204½ E. George St. in Marion.

NOVEL TWIST. This very brief peaked pillbox made of raspberry brushed velours is given a whimsical touch with use of a chin-tie of mauve wool jersey gloves.

MARRIAGE ANNOUNCED

GALION — Announcement has been made here of the marriage of Justina J. Schnauz of Galion, and Amos L. Bartel of Massillon. They were married in Galion Nov. 7, in St. Joseph's Church, Rev. Father Kenneth Hans performed the ceremony. Mr. Bartel and his bride will make their home in Galion.

Discarded Cigaret Belieyed Cause of $300 House Fire

A loss of some $300 was estimated in one of two fires put out over the weekend by Marion city firemen.

A discarded cigaret was beheved cause of a blaze at the residence of Vernon Neal at 572 Wilson Ave. at 9:20 p. m. Saturday. Firemen reported the fire apparently began in a living room chair, spread to the davenport, window curtain and shade. They reported no one was in the house when the fire broke out. Neighbors saw smoke coming from the house and called the fire department. Firemen from the Central Station answered the call.

The other firerun over the weekend was at 2 p.m. yesterday to the J. J. Francis farm on Route 30-S just west of the city limits. Firemen said a passing motorist evidently threw a lighted match into some weeds setting them afire. The call was answered by the Marion Township firetruck from the Mark St. station. No loss was reported.

ACROSS THE COUNTER

"That General Motors fire sure was tremendous," said Mr. Moore, a local businessman. "I read that it was the largest single fire loss in history."

"Yes", I replied, "but even it was a pigmy alongside the loss General Motors took."

Earl J. Andrews

"What was that?" asked Mr. Moore.

"The gigantic financial loss caused by the interruption to their business. Production at the Hydra-Matic division will be seriously curtailed for months. They'll lose millions in sales, and have to carry an extra-heavy overhead until full scale output is resumed".

"How big is that loss?" said Mr. Moore.

"Counting the indirect loss on suppliers, a leading insurance official estimates it will be 4 or 5 times the staggering amount involved in the fire damage to the property," I replied.

"Maybe I'd better have business interruption coverage on my store," Mr. Moore volunteered.

"I was coming to that," I said, "it is sensible. The coverage pays you the profit you would have made had the fire not occurred. Also, it will pay the cost of retaining your key personnel while your store is being rebuilt."

Mr. Moore nodded, "I've heard it was reasonable, too! Why not figure out just what it would cost me?"

May we figure for YOU, too?

City Police Make 5 Traffic Arrests

Five motorists were arrested and another was issued a citation on traffic charges over the week end by Marion police.

One of the drivers was arrested when he drove through a red light at State and Church Sts. in front of a police car on the way to a fire, police said. He was Lester Staught, 38, of Columbus. Police said their car narrowly missed hitting Staught's car broadside. Staught was charged with failure to yield the right of way to an emergency vehicle. He was to appear in Municipal Court today.

Others arrested and the charges against them were: Carl F. Sarick, 18, of near Upper Sandusky, insufficient brakes; Glenn E. Barkley, 25, of near Marion; speeding; Willard L. Ciola, of 406 Thompson St., speeding; and Henry D. Heller, 43, of 512 Polk St., driving while intoxicated. All were to appear in Municipal Court today.

Issued a citation to appear in court today also was Wayne R. Haubert of 935 N. State St., speeding.

Safe Stolen in Mt. Gilead Found on County Road

A safe stolen from a Mt. Gilead store Friday was recovered Sunday by the Marion County sheriff's office after a Marion man spotted it on Marion County Road 94.

The 250-pound gray safe, with its contnest of approximately $25 gone, was found on the Hillman-Ford Rd. by James Powelson of 326 S. Grand Ave. It had been stolen from the Mansfield Brothers Tire and Implement Store in Mt. Gilead.

Woman Once Destitute May Get $500,000

ST. LOUIS (AP)—Mrs. Bella May McKeon who has needed financial help from her son for about 15 years, might inherit a half-million dollars from the estate of a wealthy Pittsburgh aunt.

The 67-year-old retired stenographer lives in a small, brick tenement.

John Phelan, 46-year-old son by a previous marriage, said last night his mother has been staying with relatives in St. Louis County because of her nervous condition over settlement of the 3½ million-dollar estate of an aunt, Mrs. Sarah M. Weller of Pittsburgh.

Phelan said the family has been trying since last May to establish his mother's identity in the proceedings.

Mrs. McKeon's attorney, Mark Gale, said the final court decision may take from 30 days to a year.

Phelan said his mother came to St. Louis in 1904 and was employed as a stenographer until about 15 years ago. He is a $62 a week maintanence worker for a shirt company.

"It will be a great help for mom to get back on her feet," he says.

Mrs. McKeon is supposed to have unearthed fading photographs and her birth certificate in the hope of proving her claim.

She had not seen her rich aunt since the 1890s. Born in a hospital here, she was taken to the Midwest by her mother, Mrs. Martha Mercer Wright in 1904.

When Mrs. Weller died, a sister, Mrs. Mary Mercer Noone, Churchville, N. Y., and a brother, William S. Mercer, Lima, Ohio, each got $479,730. Mrs. McKeon may receive the same. Then the three will divide a $200,000 escrow fund.

Van C. Kussrow, Orange Bowl schedule chairman, said the contract guarantees each participating team $120,000.

Barons Break Losing Streak With Pair of Victories

Marion Climbs to Seventh Place Spot in IHL Battle

By GARY SAMS

Marion's Barons edged Johnstown in the clubs' initial meeting of the year Sunday afternoon on the Coliseum ice to complete a successful International Hockey League weekend.

The Barons defeated the visiting Johnstown Jets 4-3 in a tight game before 2,000 fans after downing the Milwaukee Chiefs 6-3 there Saturday night. The Baron win snapped a five-game losing streak and marked their first win on the road in six attempts. It also broke a five-game winning streak which the losers had amassed on the home ice.

The pair of wins elevated the Barons from the cellar into seventh spot in the IHL standings. Their record for the year now reads 6-8

Jets Control Puck

Harold Jones was the big gun for the Barons in their win over Johnstown. Scoring twice in the game for his third goal of the weekend, his second one at 14:54 of the final period snapped a 2-2 deadlock. Seconds later at the 15:10 mark, he was credited with an assist on Steve Briklacich's winning goal.

Baron Goalie Lou Crowdis, playing a marvelous game in front of the nets, also came in with laurels. Some tremendous stops during the first period kept the Barons in the game at the outset. Several times he protected the net when Jets came in all alone with the puck.

Briklacich on defense for his terriffic body checking was particularly singled out by Tony Hemmerling, Baron general manager. He also singled out Tony Poeta, acquired only days ago by the Barons from their parent Cleveland Baron club, and Jerry Prince for their work.

The Barons were extended to the limit in the final three minutes of play after acquiring what seemed to be a safe 4-2 lead at the 15 10 mark on Brklacich's shot from point on a screen. H. Jones and Kenny Schultz received credit for assists on the play.

Johnstown yanked its goalie, Claude Roy, and inserted a forward in his place in its desperate attempt to get back in the game. Then at the 17 39 mark on power plays at the Baron net, Frazier Kilpatrick pushed the puck in from in front of the Marion net. William Gallagher and Clifford MacArthur were given assists on the play.

Controlling the puck for the remainder of the game, Johnstown poured the rubber at Crowdis but the Barons' defensive work stopped the Jets' attempts.

Marion broke the scoring ice at the 12 51 mark of the first period. Jones connected for his first goal of the game with assists from Brklacich and Schultz. Jones' 20-foot shot from dead center came with Johnstown a man short. Kilpatrick was sitting out a two-minute penalty for elbowing at 13:36.

Johnstown tied the score at 1-1 with 18 48 gone in the period when J. Arthur Dorrington skated in unassisted for the goal

With the Barons short two men late in the first period and for part of the second, Marion's defense stopped Johnstown's bids for a goal. Brklacich had been sent off the ice, Gordon Vejprava later in 18 56 of the first period and Murray Wilkie shortly later at 19.49 for cross checking.

The score remained in a 1-1 deadlock as the final period began after power attacks by the Barons late in the second period with Johnstown a man short. Johnstown was a man down after John Horvath was sent to the penalty box for elbowing. The referee was forced to pull Horvath and Brklacich apart after their tempers flared before sending Horvath off the ice. Gordon Vejprava later in the period was shaken up when T. Joseph Medynski skated into him. Medynski was sent off the ice for charging at 19 35 while Vejprava, his wind lost, was helped off the ice to recover.

Marion went ahead again at 7.21 of the third period on Poeta's unassisted goal. He stole the puck at his own blue line and skated in alone for the goal. His third goal of the year for the Barons made it 2-1.

The clean, hard hitting began to pick up at this point. Only penalties of the period were when Albert Bruce of the visitors and Brklacich were sent to the penalty box on roughing penalties at the 8.24 mark after they were broken apart by the referees.

The score was tied again by Johnstown at the 13:27 mark when Donald Hall, the IHL's leading scorer, went in for the goal. Ross Kelly assisted on the play.

Winning Goal Scored

Then Marion's two lightening goals put the Barons ahead for keeps. Schultz centered out from behind the Johnstown net to Jones for the tie-breaking goal at 14 54. Player-coach Ott Heller was given an assist on the play also Brklacich's goal on assists from Jones and Schultz came only 16 seconds later at the 15:10 mark.

Saves were 28 for Roy and 25 for Crowdis.

The Pleasant High School band furnished music before and during the game.

Vejprava paced Marion's attack against Milwaukee Saturday night when he shoved in two goals. Brklacich scored his first goal of the year in the game while Poeta, Prince and H Jones each tallied for the winners.

The Baron's next home game is Sunday. Cincinnati is here.

3,308 Fans See Milwaukee Game

The game with Milwaukee was played before the best crowd of the season, 3,308. Going into the final period with a 6-1 bulge, the Barons stoved off a Milwaukee rally with two men in the penalty box. The Barons drew 13 minutes of penalties in the third period, but most of the Milwaukee scoring opportunities were thwarted by the alert Baron defense. The Barons stopped what appeared to be sure shots at the net twice and twice again with a man in the cage.

With only 4:28 remaining in the game, Milwaukee got its second goal of the evening and it wasn't until 30 seconds remained in the game that the losers tallied again.

Parent Club To Visit

Cleveland's Barons of the American Hockey League, parent club of the local Barons, are scheduled to be in Marion Tuesday for a practice session

Pete Hendy, public relations man for the Marion Barons, said the Cleveland team would scrimmage on the Coliseum ice from 12-noon to 2 p.m.

He added that the public could watch the scrimmage.

Armory Wrestling Features Tag Bout

A 60-minute tag team match will highlight the Thursday night wrestling card at the armory, Promoter Les Fishbaugh announced today.

The Black Panther and Rickey Waldo will team up against Gino and Angelo Martino. The two teams met last week in a rough house affair which ended in a no decision verdict. All four asked for rematch.

Barney Degan and George Thomas are matched in the semi final bout for two out of three falls over a 60-minute route. The Masked Marvel will be pitted against Cowboy Curry in the 30-minute opener at 8:30.

Iowa Runner Leaps Into Scoring Race

CHICAGO (AP) — Iowa's George (Dusty) Rice burst into top contention for Big Ten individual scoring honors with a three-touchdown splurge as the Hawkeyes beat Minnesota 27-0

Rice now has totaled 10 touchdowns for 60 points against conference and nonconference teams.

MARION BARON PLAYER-COACH OTT HELLER and John Horvath of the visiting Johnstown Jets are shown preparing for a face off during the opening period of yesterday's game at the Coliseum. Awaiting the outcome are Ted Lebioda of the Barons and Frazier Kilpatrick of Johnstown in the background to the left of the face off. Freddie Blackburn is the lineman. The Barons edged Johnstown 4-3 for their second win over the weekend.

13 College Grid Teams Still Unbeaten, Untied

NEW YORK (AP)—The list of the nations unbeaten, untied college football teams had dwindled today with 13 of them having completed their seasons.

Maryland, with nine victories, and Notre Dame, with seven, are the only major teams on the list. West Virginia dropped out Saturday in a 20-14 loss to South Carolina.

Illinois Needs Victory To Tie Michigan State

CHICAGO (AP)—There is a very real possibility that the battle for the Big Ten Rose Bowl bid will be decided finally in the ballot box instead of the stadium.

That is, if Illinois' football team wasn't blown so high by Wisconsin's 34-7 blast that it won't be able to settle down against weak Northwestern Saturday.

But if the Illini can finish their season with a victory over the Wildcats — five-time losers in the conference—they'll match the MSC record of five Big Ten wins and one loss.

Then the conference's athletic directors will have to choose between Michigan State's Spartans and the Illini, voting for the team they think the most "representative."

Wisconsin also can end the season with a 5-1 mark by beating Minnesota Saturday. This would make the Big Ten championship a three-way affair but the Badgers, having taken the trip to Pasadena last Jan. 1, are ineligible for a repeat this season.

Michigan State finished its conference season with a 14-6 conquest of Michigan. The Spartans wind up in a nonconference game against Marquette but the game, though having no effect on State's guarantee of at least a title share, may influence MSC Rose Bowl chances

If Illinois and Michigan State tie for the crown, a victory over the Milwaukee Hilltoppers would serve to pad MSC's argument for the Pasadena nomination. The Spartans have lost only one game, to Purdue.

Besides losing to Wisconsin, Illinois was held to a 21-21 tie by Nebraska.

However, two other considerations might work against selection of Michigan State:

1. The Spartans are on Big Ten probation because of certain recruiting practices.

2. They are in their first year of Big Ten competition.

Conference games Saturday match Purdue and Indiana and Ohio State and Michigan. Iowa is at Notre Dame in a nonconference clash.

The Hawkeyes from Iowa City pulled a major surprise in blanking Minnesota 27-0, holding Paul Giel and his mates in their own territory virtually all afternoon while Dusty Rice sped to three touchdowns.

In other games, Indiana beat Northwestern 14-6 and Ohio State took Purdue 21-6.

Several nations have erected made-to-order cities for their capitals. Notable examples include New Delhi, India; Canberra, Australia; and Washington, D. C.

Bowl Pictures Scrambled by Football Upsets

NEW YORK — The mad scramble for the pot of gold and glory in the New Year's Day bowl games showed no signs of being settled in most cases today—and the prospects were that some would have to go to a faculty vote.

With only one more big Saturday to go for most college teams, only Oklahoma can sit back and watch the others tear at each other. The Sooners are assured of a spot in the Orange Bowl by virtue of winning the Big Seven championship for the sixth straight year They've won 40 conference games in a row.

The chances are strong that they'll meet Maryland, which by all odds should win the newly formed Atlantic Coast Conference championship. Still, Duke, no shrinking violet, is tied with the Terps as of now for first place in the league.

Rose Bowl—The Big Ten and Pacific Coast Conference winners are pitted against each other, provided they haven't played the previous year. That eliminated Wisconsin and Southern California. The Badgers threw a monkey wrench into Illinois' plans Saturday by throttling the Illini 34-7. If the Illini beat Northwestern Saturday, they'll wind up tied with Michigan State, which has finished its league season.

That would call for a faculty vote, in which case Illinois probably would get it since Michigan State is not in the best of graces with the Big Ten. In fact, they're on probation.

In the Pacific Coast half of the Rose Bowl, UCLA and Stanford are tied for the lead, each with a record of 5-1. This week Stanford plays California and UCLA tackles Southern California. If both contenders win, the league schools will vote for the host.

Cotton Bowl—The Southwest Conference winner acts as host in this one and the clearest word that can be used is "chaos." Texas has a 4-1 record with one to go while Baylor, Rice and Southern Methodist all show 3-1 records with two games each still on their schedules. This could finish in a four-way tie, a situation that would give the moguls a real voting problem.

Sugar Bowl —Despite its loss to Notre Dame, Georgia Tech was the No. 1 candidate for one of the assignments—until it ran into a 13-6 defeat at the hands of Alabama Saturday. Now 'Bama could get the spot. The same could be said of West Virginia. The Mountaineers thought they had a good chance, what with a winning streak of 13 games. But South Carolina stopped them 20-14.

It looks like things won't be settled until all the returns are in.

Meanwhile, Notre Dame continued to make the experts look good The Irish, voted the No 1 team in the preseason Associated Press poll of sports writers and sportscasters, have been at the top ever since and now boast the longest winning streak in the country—nine, including a 34-14 triumph over North Carolina Saturday.

Notre Dame still has three games to go—against Iowa, Southern California and Southern Methodist Maryland, the only other major unbeaten, faces only Alabama, one of its conquerors of last season. Until Saturday, both Illinois and West Virginia had been members of the select circle of major unbeatens.

For a time, the experts feared that Maryland was not quite the team it was built up to be But Jim Tatum's Terps pulled out all stoppers when they crushed a solid Mississippi team 38-0. That score will give Alabama cause to worry.

Ticket Furor Grows Between OSU, Michigan

COLUMBUS, Ohio (AP) — A new feud is developing between Ohio State and Michigan, bitter rivals on the football field for more than half a century.

The most recent battle is between the Buckeye and Wolverine football ticket offices and could be an all-time sizzler.

Ohio State officials are disgruntled over the poor seats given Buckeye fans for Saturday's game at Ann Arbor.

Under Big Ten rules, the visiting club must be furnished a minimum of 3,000 seats "within the playing field yard stripes." Michigan gave Ohio exactly 3,000, running from midfield to the goal line The remaining 13,000 seats allotted Buckeye rooters are on one end of Michigan's giant 97,000-seat stadium

Buckeye officials say the game will be far from a sell-out.

George Staten, Ohio State ticket director, said he complained bitterly to Michigan officials but got nowhere.

"Just wait 'til Michigan comes down here next year," Staten screamed. "They'll get the same treatment on their 3,600, and the rest of their's are going to be in the south bleachers."

The Ohio State Journal in today's issue printed a diagram of the Ann Arbor stadium, outlining in black where Buck rooters will sit. The caption on the diagram read "Look What They Did To Us!"

LaRue Team Wins Opening Cage Tilt

LaRue's basketballers opened their current season by dropping a 64-50 decision to Mt. Victory on their home floor Saturday night.

The winners held a 17-15 first quarter advantage and increased it to 31-26 at the half. A 22-point output in the third stanza clinched the win.

Jack Jolliff, center, paced the winners' attack with 19 markers. Chuck Furer, the Mt. Victory center, hit for 17. High man for LaRue was Larry Hickman with 13 Gene Cooper had 11 and Raymond Hosey dropped in nine.

LaRue took the reserve game from the visitors 29-25 as Larry Knapp hit for 11 points. Zachariah with 12 led the Mt. Victory attack.

Next action for LaRue is Tuesday, Nov. 24, when Green Camp is at LaRue.

Globetrotters Scheduled Here Dec. 18, To Appear at Coliseum

Those zany magicians of the basketball court, the world-renowned Harlem Globetrotters, will return to Marion Friday, Dec. 18, when they will be featured in the top attraction of a two-game program at the Veterans Memorial Coliseum

Such reliables as Reece "Goose" Tatum and captain Marques Haynes, pace-setters for the Globetrotters' mirth-provoking performance, plus most of the other members of the cast that have built the Trotters into one of the top-notch units of the entertainment world will appear. These will include Ermer Robinson, Josh Grider, Clarence Wilson, Sam Wheeler and the celebrated newcomer, Walter Dukes.

Dukes, the nation's number one college player at Seton Hall last winter, fractured his kneecap while playing with the College All-Stars in a benefit game at Madison Square Garden last month but the injury is expected to heal in time for him to play.

Three other professional clubs will appear to round out the two card game. Pairings for the two games will be announced in a few days.

All seats for the show will be reserved and are now on sale at Henney & Cooper's, at the National City Bank, Center and Main. Mail orders may be sent to Box 502, Marion.

Southern Schools May Lift Bowl Ban

RICHMOND, Va. (AP)—An unmistakable feeling of anticlimax was in the air as the Southern Conference met here today to reconsider the ban it placed on football bowl games in 1951.

The get-together of representatives of the 10 conference colleges was called hurriedly last week—presumably to help clear the way for West Virginia University's acceptance for a major bowl bid.

Now that West Virginia has suffered its first defeat this season, there may be no bowl bid to accept, even if the conference decides to rescind the ban.

West Virginia, the nation's eighth ranked football team, was upset by South Carolina last Saturday 20-14. The Mountaineers, only Southern Conference club seriously thought of as a bowl eligible, have been on both the Sugar Bowl and Cotton Bowl lists.

As the conference opened its meeting, it was a question how high West Virginia still stood on those lists. A Sugar Bowl spokesman in New Orleans said the Mountaineers still were getting top consideration — that two scouts were "very much impressed" by West Virginia's performance against South Carolina despite its defeat.

Bucyrus Cagers Begin Practices

BUCYRUS — Practice started here today for Bucyrus High School's 1953-54 basketball squad with only one regular from last year's team, which shared the Northern Ohio League championship with Bellevue and Shelby.

Lone regular returning is Glen Butterman, senior center. Graduated last June were Dan Bumstead, who set an all-time BHS scoring record in 1952, Jess Flohr, Bob Jones and Bob Barth.

New head Coach John Hutton is expected to fill the four starting vacancies from last year's lettermen and reservists including Harold Werthman, Ned Bibler, Roger Freshwater, Tom Smith, Dick Rehm, Fred Frey, Ron Yaussy and Dan Rife. Rife, a 6-4 senior, is out for basketball for the first time.

Hutton succeeds Richard King as basketball mentor. He coached three years at Shadyside, O., High School, where his teams won 21 and lost 38. King resigned last spring after three seasons to become junior high basketball coach at Sandusky High school.

The 1953-54 schedule for the Redmen includes eight home and eight road contests. New opponents are Port Clinton and Elyria.

The complete schedule follows:

Dec. 4, Port Clinton; Dec. 8, Tiffin Columbian; Dec 11, Galion; Dec. 18, at Crestline; Dec. 29 at Elyria; Jan 8 at Shelby; Jan. 12, Kenton; *Jan 15 at Willard; *Jan 22 at Galion; Jan. 23 at Mansfield Madison; Jan 26, Willard; *Jan 29, Shelby; *Feb 5, Crestline; *Feb 12 at Norwalk; *Feb 19 at Upper Sandusky; *Feb. 26, Bellevue

Lou Groza Kicks Cleveland to Eighth Straight Win

Graham Passes, Defenders Edge San Francisco 23-21

By ORLO ROBERTSON

NEW YORK (AP)—The National Football League standings had a decided 1952 tinge today chiefly because of Lou Groza's toe and Charlie Trippi's arm.

Cleveland's all-winning Browns and the Detroit Lions met for the NFL title last fall and it looks as if they're headed for another clash since they top their respective conferences.

There's little question but what the Browns will be in the playoff. They have won eight games and lead the Philadelphia Eagles by 2½ games in the Eastern Conference. Each has four to play.

But the Lions' hold on the top spot in the Western Conference is not so secure. They hold a half-game margin over the second-place Los Angeles Rams and a full game over the third-place San Francisco 49ers

Cleveland, with Groza kicking three field goals, played an important role in dissolving the three-way tie for the Western Conference lead yesterday. The 11 points contributed by Groza (he also converted after two touchdowns) were the difference as the Browns defeated the 49ers 23-21 before 80,698 at Cleveland.

At Chicago, Trippi completed eight passes, seven of them in a row, from a spread formation. The Cardinals tallied in the final minute to tie the Rams 24-24. The deadlock by a team that hasn't won a game all season really gave the Rams' title hopes a setback for the Lions, throwing up a sturdy defense after Bobby Layne had tossed two touchdown passes, beat the Green Bay Packers 14-7.

None of the other games had any effect on the upper brackets in either conference. The Pittsburgh Steelers did move into third place in the Eastern Conference on a 14-10 victory over the New York Giants. And the Eagles retained a mathematical chance of catching the Browns by thumping the Baltimore Colts 45-14 after Buddy Young had returned the opening kickoff 104 yards for a Baltimore touchdown. The Chicago Bears tied the Packers for last place in the Western division with a 27-24 decision over Washington's Redskins.

The Browns never trailed against the 49ers but their edge never was large. Otto Graham sat out parts of the second and third period with an injured face. In the final period he pitched passes of 33 and 34 yards to Ray Renfro for Cleveland's second touchdown and engineered the drive that placed the ball in position for Groza's third field goal. The 10 points more than offset the 49ers final drive, which ended with Y. A Tittle scoring at the end of an 84-yard match.

With 15 stitches in his cheek, Otto completed nine of 10 passes for 161 yards in the second half.

The biggest pro football crowd here in five years thrilled as 24 of the game's 44 points were scored in the final 11 minutes. Tempers were short, play was rough, and penalties mounted to 129 yards for the half—84 against the Browns.

"We got pretty steamed up when Otto got hurt," said defensive center Tommy Thompson, with Graham a Cleveland co-captain "x x x They couldn't do that to Otto and get away with it. Not old Otto."

Otto, an "old" 31 and in his eighth and best season as a Brown, was slammed in the face by rookie guard Art Michalik's right elbow. It happened six minutes before the half, after Graham ran 20 yards and went down just across the sideline in front of the Browns' bench. Blood poured from Graham's mouth as he stood up and tested his passing arm.

"I made a dive for Graham and hit him with my elbow," Michalik said later. "I sure didn't mean to hurt him." And Graham, who lost no teeth and had no fracture, said he didn't think it was "on purpose."

Graham improved the league's best forward passing efficiency record by completing 17 of 24 for 286 yards, including one to Ray Renfro for a touchdown, also paving the way for another by Billy Reynolds, and for Groza's three field goals. Halfback Hugh McElhenny scored two of the 49er touchdowns, one on a pass from Tittle, and Tittle tallied the other in the final 30 seconds.

SHORT SPORTS

By John Short

Announcement late Friday by the state Wildlife Division that the opening of rabbit hunting season had been postponed a week has put hunters throughout the state up in arms.

Many hunters in Marion and Marion County were set to open the season today with junkets, both short and long, to their favorite spots. Factories had given time off to many and high school students, after turning in extra work, were given excuses for the first day.

SHORT

Plans had been made even while the Wildlife Division was meeting to consider the postponement. The final decision was reached late Friday afternoon too late for home editions of newspapers and many hunters were not warned until Saturday.

In most cases, little trouble was encountered in setting plans aside for the week. However, those hunters which had trips scheduled were troubled. At least one group of hunters from Marion left late Friday for southern Ohio. They trooped back home Sunday after driving 147 miles only to find the season had been postponed.

The Wildlife Division cited the recent dry weather and extreme danger from fires as the reason for the delay. While most hunters are kicking up a fuss about the delay, many level-headed sportsmen are taking a more sensible attitude. The level-headed ones point out that many farmers would have closed their parched fields to hunters anyway if the division hadn't postponed the opening.

VERSATILE GUY. Billy Reynolds, who has jumped to stardom this year with the Cleveland Browns and who is forcing Dub Jones to spend more and more time on the bench, is rapidly gaining popularity as a pro performer.

Cleveland Browns fans to a man, or woman, are hailing him as the best newcomer since Chick Jagade and Tommy Thompson arrived.

He has been described in a variety of ways. Football experts describe him purely as a hard-hitting fullback. Others watch him leaping for Otto Graham aerials and wonder aloud what he would be like on the basketball floor But last week, Ken Somerlot, track coach at Harding High School, came up with a new one.

Watching Reynolds in action, Ken hinted he would like him on his track squad. Somerlot describing a long run, says Reynolds turns on his dashman speed after breaking into the secondary. The new Brownie star was a track star in high school and also ran a little at the University of Pittsburgh.

Bucks, Wolves Clash in Final Game of Year

By FRITZ HOWELL

COLUMBUS, Ohio (AP) — Twenty-three of Ohio's 35 collegiate grid teams put their Moleskins in the moth balls today—but the other 12 have some interesting season-end chores to complete.

The always-interesting Ohio State-Michigan classic is slated Saturday at Ann Arbor, surrounded by its usual furor although both teams are out of the Big Ten title race. Michigan State dimmed the luster of both by beating the Bucks 28-13 a week ago, and then turning back the Wolverines 14-6 Saturday.

On the home front the conference titles have all been decided.

Defiance, the state's only unbeaten-untied team, won the Mid-Ohio League title a week ago with a 4-0 record. Ohio University moved into the Mid-American Conference crown room Saturday with a 22-14 win over Bowling Green, and Ohio Wesleyan clinched the Ohio Conference mythical title by beating Wittenberg 34-7 as Akron, the last contender, fell 26-0 before Heidelberg's Student Princes, the defending champs.

Wesleyan and Akron are due to tangle Saturday, but the Bishops have the laurels in the bag. Wesleyan has a 6-0 league record, and Akron 4-1. If Wesleyan wins, Heidelberg (4-1-1) moves into the runnerup spot, Otterbein will take third, and Akron fourth

Ohio U. wound up with a 5-0-1 Mid-American mark, as compared with Miami's 3-0-1. They played a 7-7 tie a couple of weeks ago.

The state wide title is still up for decision, and it probably rests on the Miami-Cincinnati Thanksgiving Day game in the Queen City. Cincinnati has eight wins and a loss to Marquette, while Miami has seven victories and the tie with Ohio U.

Cincinnati, after smothering VMI 67-0 Saturday while Miami was taking Dayton 20-7, moved around the Redskins into the state scoring lead with 340 to Miami's 327. Miami clung to the defensive lead with only 38 allowed, 20 less than Cincinnati.

With only the Ohio-Michigan and Ohio U.-Marshall games still on the interstate schedule, Buckeye teams are certain to wind up far ahead of the out-of-state foes. The Ohioans have won 54, lost 38 and tied 4 against the out-of-staters, and lead in scoring, 1,983 to 1,689.

The remaining schedule:

Saturday: Ohio State at Michigan, Ohio U. at Marshall, Oberlin at Wooster, Ohio Wesleyan at Akron.

Sunday: Xavier at Dayton

Thanksgiving Day: Case at Western Reserve, Miami at Cincinnati

The Big Seven and the Atlantic Coast Conferences signed a two-year contract yesterday to match their champions on New Year's at Miami.

Byhalia Basketballers Romp to Second Victory

BYHALIA — Byhalia recorded its second straight victory of the young basketball season by edging Magnetic Springs 61-57 in a Union County League tilt played on the Magnetic Springs floor Friday night.

McAllister, Byhalia center, popped in 25 points for scoring honors. Lingrel added 18. The winners took a 12-10 lead at the first quarter and later clinched the victory with a third period rush that boosted the winners ahead 45-33. Byhalia's futures also won 33-30.

Byhalia is at Ridgeway tonight and Northwestern comes here Friday for another league match.

BYHALIA

Lingrel 8.2.18, K Hutchins 5 0 10; McAllister 8.9.25; Jolliff 2.2.6; Ballinger 1.0.2.

Heavies Clash In Wednesday TV Ring Scrap

NEW YORK (AP)—Danny Bucceroni, rated as the No. 4 heavyweight contender, meets Freddie Beshore in a 10-rounder Wednesday night at the Olympic in Los Angeles.

Bucceroni will probably be champion Rocky Marciano's next opponent this spring or summer. He should look good against Fat Freddie, a slow-moving target.

Bucceroni, 6 feet 3 and 190 pounds, has won seven in a row Beshore was beaten by Harry (Kid) Matthews in his last outing.

CBS will telecast the bout coast to coast starting at 10 p m , EST.

Joey Klein, bright New York welterweight prospect, faces toughie in Freddie (Babe) Herman of Los Angeles in the top 10 at Brooklyn's Eastern Parkway arena tonight. Du Mont will telecast the 10 p.m , EST, tussle to some parts of the country.

Chico Vejar and Vince Martinez, a pair of tarnished TV idols, collide again in the feature 10-rounder at Madison Square Garden Friday night. Vejar, the NYU drama student from Stamford, Conn., outpointed Martinez, the onetime craftsman from Paterson, N. J. in the Garden last March.

Chico has an 11-fight win streak going. Martinez has won three in a row. Starting time is 10 p.m., EST. It will be boadcast (ABC) and telecast (NBC) coast to coast.

WYANDOT CAGERS OPEN

UPPER SANDUSKY— Wyandot County Class B basketball teams opened the season Friday night with Sycamore winning over Harpster 80 - 50. McCutchenville took Marseilles 79-65 and Salem bumped Wharton 89 to 53. The seventh Wyco League member, Nevada, was idle and will open at home with a non-league game against Melmore Tuesday. League games Friday will take Sycamore to Salem, Marseilles to Harpster and Nevada to McCutchenville. Wharton will take a non-league trip to Dunkirk Salem's Jim Reile was high point man in the first round with 28.

Camille in Modern Dress

"Camille," the first novel of the younger Alexandre Dumas, may easily be one of the most terrible novels ever written. As a theatrical vehicle, it's a different matter, having afforded a great many luminous ladies — from Greta Garbo to Lillian Gish—a splendid opportunity to cough and pine and die in the arms of countless young lovers.

J. CROSBY

"Camille" was written in 1848 in the middle of a romantic movement and in the best romantic tradition If you examine not only the literature, which is a fairly accurate refelection of the time, but also the police blotters of mid - 19th century Paris, you'll find that it was not at all uncommon for young men (or, for that matter, old men) to ruin themselves utterly over pretty young courtesands with an abandon which seems fairly incredible now.

OF COURSE, a guy can still get into pretty serious trouble over a dame to this very day. But in a rather different manner. Camille's problems are rather special to her own time and her own place. So what happens? The "Studio One" production of "Camille," which was selected as its fifth anniversary play opens to the strains of "You're the Cream in My Coffee" in a Manhattan penthouse in what I gather to be the early '30s.

The adaptation from one century and one country to a quite different century and country was made by Thomas Phipps, one of the most prolific writers of mediocrity in television. The language of love, which in the book and the play is thunderous and heroic to the point where it is a little preposterous, has been reduced in scale to the commonplace cliches of cafe society.

The great love between Armand and Marguerite became just another affair between a loose lady and a junior at Harvard who has yet to come into his own money.

-:-

YE GODS AND LITTLE fishes, when will television producers stop trying to impose the customs of another century on our times where they don't belong? Take, for example, the scene between the father and Camille, one of the big scenes in both play and book.

In its time and place, a father had a good deal more control over the destinies of his son than he has today. Also, a disastrous marriage in those days could literally extinguish a young man socially, economically and every other way A bad marriage, while it can still do a lot of damage, is hardly that serious a matter any more and consequently the scene lost much of its point.

-:-

THE LAST HALF OF "Camille" has been sure - fire theater for a century now and even in modern dress, it was still a tearjerker of unparalleled power Much of this latter - day effectiveness can be attributed to Michele Morgan, a very fine French actress, who was imported here to play "Camille" and who breathed an awful lot of fire into some very tired lines (If they'd put Camille into a Brooklyn accent, I'd have gone sloping off to the nearest saloon after the first five minutes.)

"How," asked a companion in front of the set, "are they going to get around streptomycin?" I rather wondered how they were going to handle tuberculosis in the light of modern science, too. Well, they ignored it. Camille coughed a good deal but there was no mention of TB and you rather got the idea that the girl died of a broken heart, more or less abetted by too many late nights at El Morocco.

-:-

IN SPITE OF ALL these churlish remarks, I'm happy to wish "Studio One" a happy fifth anniversary and many happ; returns of the day. "Camille" is the 25th production of this distinguished program which has presented the works of everyone from Shakespeare to Bella and Sam Spewack, from Tolstoy to F. Hugh Herbert.

In five years its audience has grown from 1 000,000 to roughly 23,000 000 which is an awful lot of people to see either Shakespeare or F. Hugh Herbert.

No Clues Found In Slaying at Erie

ERIE, Pa. (AP) — Police reported today they are without clues in the slaying of a 70-year old retired boat engineer whose burned body was found stuffed in the locked trunk of his auto.

Several hours after the discovery Saturday night the body was identified as that of George Harrington, 70, of nearby Lakeville, Ashtabula County, Ohio. He had last been seen Saturday morning as he left his home to distribute literature for the Jehovah's Witnesses, a religious group.

John Coates, chief Erie County detective, said it is possible Harrington was slain by a hitchhiker

PASTORS TO DISCUSS FILM

A meeting for pastors and a representative layman from all denominations in Marion and the county is being called for Tuesday at 2 p.m. at the YMCA in the interest of showing in Marion the motion picture, "Martin Luther". Meeting with the church people will be representative of the sponsors of the picture which has been drawing large crowds in various cities throughout the country. Plans are being made to bring the film to the Palace Theater here the week of Dec 6.

Christmas
The Year 'Round

In beautiful Vernon Heights just off the boulevard. A naturally beautiful setting, superbly landscaped with gorgeous shrubbery and flowers. A nice concrete drive to a double attached garage puts the finishing touch on this exquisite six room one-owner home. Two complete baths add to the luxury of this fine home. Kitchen, dining and breakfast room make for the finest modern living. The wood-burning fireplace gives it the coziness of a country estate. But let's save time by having a look we love to show it. In the $16,000 class. May we show you?

Weekend Railroad Runs Fulfill Man's Ambition

BIRMINGHAM, Ala. (UP)—Robert H. Walston, inspired by the tale of Casey Jones to dream of becoming a railroader finds some fulfillment of that dream when he leaves his books behind for a week end in the cab of a shining streamliner.

Walston made his boyhood dream a reality despite his confining job as bursar of Birmingham-Southern College here by writing to the presidents of railroads and telling them of his frustration.

His letters have brought permission for him to make week-end runs in the engines of passenger and freight trains of the Frisco Southern and Illinois Central Railroads along with the engineer and firemen.

"Railroading has always been in my blood, and, although I have never been a railroad man by profession, I often have a longing to ride the rails in the front end of the train," Walston said.

A happy family is but an earlier heaven.—Bowring
